

Australians are waking up to the greatest scam in Australia's history. The truth must be told.

“The illusion of Government”

There is not only a *Government of the Commonwealth of Australia*, there is also an United States owned Corporation called COMMONWEALTH OF AUSTRALIA

Here's the proof

'Australian Government' is an American Corporation registered in the DISTRICT OF COLUMBIA, United States

The screenshot shows the SEC EDGAR filing detail page for the COMMONWEALTH OF AUSTRALIA. The page header includes the SEC logo and navigation links. The main content area displays the filing details for Form EFFECT - Notice of Effectiveness, including the effectiveness date (2011-07-27), reference accession number (0001341004-11-001517), and a table of document format files. The table lists two files: primary_disc.html and primary_doc.xml, both of type EFFECT. The filing is for the COMMONWEALTH OF AUSTRALIA (Filer) with CIK 0000805157. The business address is listed as 1601 MASSACHUSETTS AVE NW, C/O AUSTRALIAN EMBASSY, WASHINGTON DC 20036.

A merger or gradualism of corporate power with governmental power to falsely deceive the masses

A corporate take-over via stealth

“The structure of fascism is corporatism, or the corporate state. The structure of fascism is the union, marriage, merger or fusion of corporate economic power with governmental power.”

“This awareness indicates that for the most part these multinational corporations and the governments which they control tend to enter into areas to exploit the countries, setting up just enough structure within the country to call it a government, recognize it as being the legitimate government, and defend it against all other who might interfere with their structured corporate government within that country.”

IMPORTANT QUESTIONS TO ASK:

When was our Government corporatised?

Is this an overthrow of our Government via stealth and public secrecy?

Why isn't the Australian people told about this?

Why isn't this scam front page news?

When Australians go to work everyday, are they supporting a

government for, of, and by, the people or a US corporation masquerading as Government?

Why is a company called 'COMMONWEALTH OF AUSTRALIA' registered in Washington DC?

What reason could there be for a country to be registered as a company?

By definition, aren't corporate and government entities mutually exclusive?
And doesn't government regulate companies?

Why would Australia be registered with the SEC in the United States?

And why would it provide a 'Prospectus' and annual 'Economic and Fiscal Outlook' documents to the SEC? And be subject to SEC regulation?

Why is the Great Seal of Australia a trademark registered with United States Patent and Trademark Office?

Could the 'Australian Government' be a corporate entity masquerading as real government, for profit, and not for the purpose of governance?

Does the 'Australian Government' truly represent "the people" and not shareholders in another country?

Why do today's government departments have corporate mission statements like "we provide services on BEHALF of government" and "our CLIENTS include government..."?

What happened to "we ARE government"??

Does this suggest they are NOT true government, but a company masquerading as government?

If a company registered in Washington DC is falsely claiming government status in Australia, what happened to the real (de jure) government with a similar name? And when?

And are the laws in Australia therefore just rules for employees and contractors of the corporation?

Perhaps it is a requirement that the Commonwealth of Australia registers as a company entity in order to trade with the United States of America. Are all the other countries who trade with the United States also registered on the American SEC?

Is 'the United States of America' also registered with ASIC, the Australian Securities & Investments Commission?

And is Australia similarly registered with the corresponding trade regulators in other countries?

The answer appears to be NO.

International trade implies mutual agreement; reciprocity; a common method of exchange. But the reality is that the 'COMMONWEALTH OF AUSTRALIA' is registered as a corporate entity with the United States SEC, but not the other way around. There appear to be no comparable corporate entities registered in other countries with which Australia trades. And nations ranking among the United States' biggest trading partners do NOT have corporate avatars registered with the American SEC. Perhaps registration in Washington DC is for the purpose of trading Government Bonds. Interesting..... But this strange corporate entity is only half the story. Before government bonds can even exist, surely there must first be a legitimate government.

AUSTRALIANS DEMAND ANSWERS

HAVE WE BEEN SOLD OUT!!!!
