

GREATEST OPPORTUNITY – seize it or lose it !

Freedom of speech and religion is good - rape, murder, unlawful blocking public streets is not. **Scott Morrison**, as a professing Christian and “**visible**” Captain of the Ship known as the Commonwealth of Australia on the Sea of Commerce, now has a brilliant opportunity to enact many reforms - *What is the Sea of Commerce ??*

The following is not in any order of priority, but it's a good idea to start at the top.

1 – Federal Parliament – Every Member must **publicly renounce** any allegiance to any foreign power or ideology which conflicts with the proper Oath within our proper law The Commonwealth of Australia Constitution Act 1901, as we voted to retain in the 1999 Referendum, and be then he/she reinstated under it. That includes all the Judiciary, Police, Pastors and every individual in any legitimate Gov't role. Those who refuse are to be dismissed with no pensions. Every wannabe member must achieve at least 50% of votes in his electorate ... no preferences.

2 - Restore trial by jury. The loser pays.. Historically, 90% are settled out of court when a jury is called.

3 - The true 1901 Constitution to be taught in schools weekly - and in Churches 1 x sermon quarterly. <https://larryhannigan.com/constitution-2/>

4 - State Government - Repeal all Acts and Bills and plebiscites since 1973 which conflict in any way as defined in Sect 109. This includes every Local Gov't Act where Local Councils are recognised in any way as being a part of Gov't. **Local councils** (elected by locals, to remain as private companies where property owners may contract for services offered.

5 - Abolish road tolls, (the fuel tax collected currently about 3 x times the amount actually spent on public roads)

6 - Abolish fines for any offence where there is no victim with no harm to people or property. Apply Biblical standards penalties ... eg a thief repays double

7 - Abolish the “no job no pay” policy. Allow people to choose, wisely or not.

8 - Abolish all taxes and introduce the 2% Debit Tax system – this will raise far more taxes from all big company evaders and **reduce personal tax enormously**

9 - Introduce gun laws as in Switzerland which has virtually no home invasions.

10 - Reverse the sale of the Commonwealth Bank and restore it to its proper role as was done for the construction of the Nullabor Railway and apply the same method for all future infrastructure projects. Roads, railways etc ...

Between **1991** and **1996** the Australian government fully privatised the Commonwealth Bank. The first share offer in **1991** was valued at \$1,292 million, the second in **1993** for \$1,700 million and the third was sold for \$5,000 million in **1996** to International bankers

11 - Reduce immigration to a level as to be decided by Referendum where by the people decide what kind of people with what skills we want. Good conversational and hand written English must be compulsory before entry. The referendum will only be voted on by citizens of Australia who were enrolled 1996 or prior. Any new immigrants to Australia from 1996 to present must undertake an oath to uphold the Constitution of Australia 1901, and agree to live under Australian laws. No other foreign laws will be recognised. Those who refuse to agree will be required to leave.

12 - All administration paperwork to be converted back to simple English from debased Dog Latin, with the Australian public fully informed of this pernicious fraud.
