

What is the Name of The Almighty Creator?

Jehovah, Yahovah, Yah, Yehovah, Yahweh, YHWH, Yahshua, Yeshua or Jesus or What?

Step 1 Pray **now!**

Step 2 Open your bible now

Step 3 Read article **with** your bible

Step 4 **Fast** & pray more!

This article is important to everyone! Pentecostals, Protestants, King James Only advocates, Catholics, Hebrew Roots followers, sacred names believers, Torah followers, Jewish, Jehovah Witnesses & even Muslims. If you use any of the following words, this article will be very important to you: "Jesus, Hallelujah, Jehovah, Yehovah, Yah, Yahweh, Yeshua, Yahshua or YHWH".

What is the name of the creator? Jehovah Witnesses say his name is Jehovah. Hebrew roots movement groups proclaim the Yah names. They claim that there was no letter J in Hebrew. Most English speaking people proclaim Jesus name. What is the real truth? - Are we damned if we use our modern native language instead of the ancient Hebrew language? - Is a person damned if they do not accept the Hebrew names? - Are the Yah names truly Hebrew? - What is the total truth about the "sacred names" issue? - Must we do away with the name "Jesus"? - Must we stop using the titles "God" & "Lord"? - What does Hallelujah & Jehovah mean? - What name did Moses write?

If you have been dealing with these issues, you owe it to The Almighty Creator & to yourself to read this **entire** page & to do **much** fasting & much prayer! This will be one of the most important decisions in your life!

To keep things simply & easy to understand, I highly recommend that you first read through the entire article slowly without clicking on any of the links. Then go back & read it again, clicking on the links that you are most interested in, which document & *proves* what has been presented in this article. Many of the underlined words are also links to provide documentation & proof what each statement. Everything is documented & proven. Only facts are presented. If you want to get deeper into the study, you can go back & click on *every* link to see every bit of the evidence. I urge you to *not* discount & reject this article without first examining all of the evidence that I present in the entirety of the article. But to first understand what is being said, it's best to first just read the article & then later go back & examine the source links.

What is Traditionally Taught:

Most people are taught that in the original Old Testament, the name of the creator appeared as "YHWH" or perhaps YHVH, and then people add vowels between each letter, in order to translate it into either Yahweh, Jehovah or some other variation of the Y names such as Yehovah, Yahshua, Yeshua, etc. All of these names & hundreds of variations are based upon the letters of YHWH or JHWH. And this is why many people believe that "Jesus" should be written as "Yeshua" or some other Y name variant.

The very first thing we need to understand is that when you go to school in Israel, they teach you that the

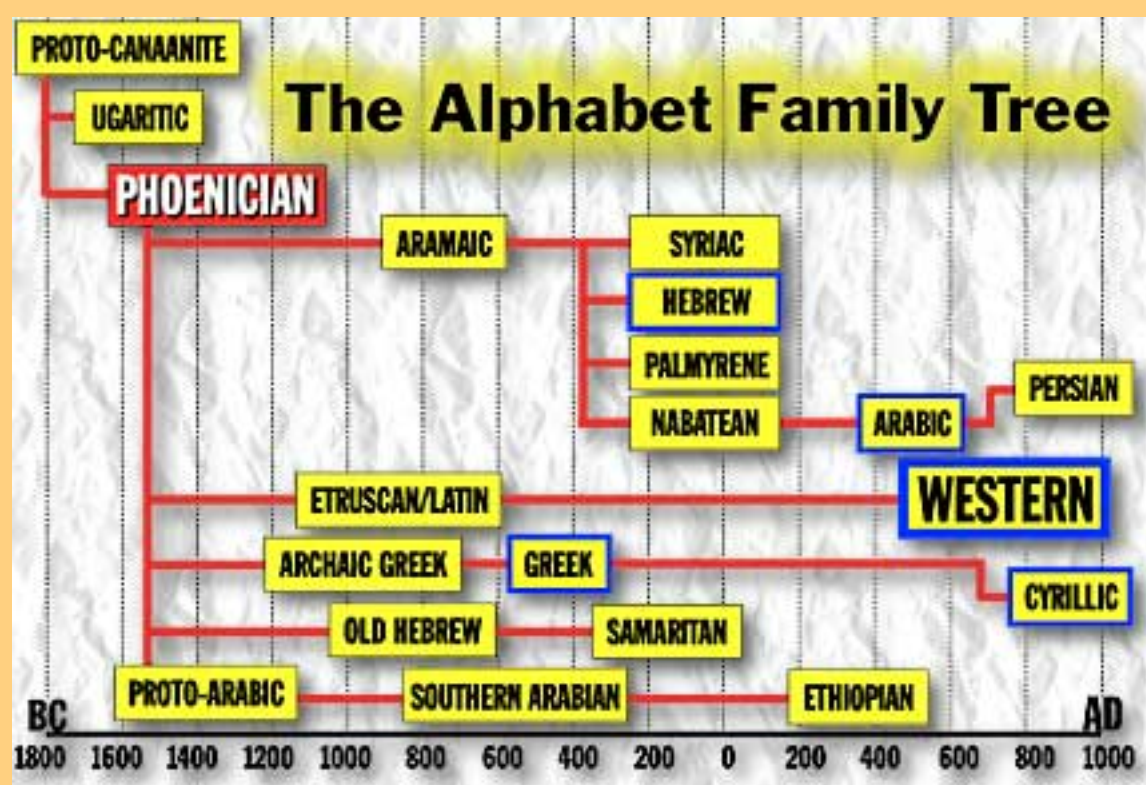

language of the Jews is not the original Hebrew language. The style of writing letters is also not original Hebrew. As historical records show, and as they teach you in school in Israel, the style of writing & the alphabet is called "the Assyrian Script". This is because when Israel was taken captive by Babylon, thousands of years ago, in the B.C. years, the original, true Hebrew language, called "Paleo-Hebrew" was banned by Babylon & so was the original, true name of the creator. The Israelites were forced to learn, speak & write the Assyrian language & Assyrian Script which both the Assyrian Empire & the Babylonian Empire used. **Daniel 1:4** Children in whom was no blemish, but well favoured, and skilful in all wisdom, and cunning in knowledge, and understanding science, and such as had ability in them to stand in the king's palace, and whom they might teach the learning and the tongue of the Chaldeans.

It is also documented, well known **fact** that Daniel wrote Daniel 1:1 until Dan.2:4 in Paleo-Hebrew. But when he got to 2:4, he started writing in Assyrian, Babylonian Aramaic. This change of language was required. The Israelites eventually translated the entire scriptures into the Assyrian language in a new corrupt bible called "the Targum" & almost completely lost their original language. To this very day, the Jews do **not** speak Hebrew, but rather Assyrian Aramaic, but with a Jewish dialect. **All of this is the documented facts of history!** When you look at most websites that proclaim the Y names, what they are calling the "Hebrew" language is **not** the Hebrew language. They are pointing you to the Babylonian Assyrian language, and they are completely ignorant of these very basic elementary school facts! They only call it "Hebrew" because it **had become** the language of the Hebrew people when they were in Babylon. This is documented **fact** & well known in Israel. When you look at Strong's Concordance of the Old Testament, look at the top of the page if you have a hard copy. It says "Aramaic" dictionary, and if you have an older copy, it says "Chaldean dictionary"! Strong's Concordance does **not** give you the original Hebrew words of the original bible! Instead, it gives you the Assyrian, Babylonian Aramaic words of the very corrupt Babylonian Targum bible that the Israelites were forced against their will to write while in captivity!

Notice chart #1 of the alphabet family tree. Notice how "Hebrew" & "Syriac" are brother languages, sons of Aramaic (Assyrian). Yet "Old Hebrew" or Paleo-Hebrew is **not**. They both descended from Phoenician language but Paleo-Hebrew & regular Hebrew are of two different branches. Notice also how that Old Hebrew or Paleo-Hebrew is listed as a brother of Greek. **True ancient Hebrew looks & sounds like Greek.** History also

Chart #1

Alphabet Family Tree (*Chart does not include all languages throughout history*)

shows that the Greeks attained their language from the Israelites. **Actually, Greek is Hebrew.** You can see that **very clearly by comparing the languages in these charts!** Modern Hebrew & the so called "Hebrew" of Strong's Concordance and Assyrian, Babylonian Aramaic look & sound alike, they are closely related, and are actually the same!

Update years after I first wrote this article: I have now discovered that the original settlers of Greece were

the tribe of Dan, one of the tribes of Israel, during the time of either Joseph or Moses! This is partly how the Hebrew language came to Greece. The original Greeks were Hebrews!

[Source 1](#). [Source 2](#). [Source 3](#).

And that the slavery of the Israelites in Egypt was much shorter than 400 years. [Click to watch this video for biblical proof that the time between Joseph and Moses was very short.](#)

See how Assyrian/Babylonian Aramaic looks like modern Hebrew!

The Following descriptions of similarities are from: https://en.wikipedia.org/wiki/Biblical_Aramaic :

Aramaic & Hebrew:

Biblical Aramaic is closely related to the Hebrew language of Strong's Concordance as both are in the Northwest Semitic language family. Some obvious similarities are listed below. - Same Aramaic square script (*which was adopted to write Hebrew in place of the Paleo-Hebrew alphabet found in earlier inscriptions*). - The system of vocalization used is the same for the portions of the bible written in Hebrew & those written in Aramaic. - Verb systems are based on tri-consonantal roots. - Similar functions of the verbal conjugations. - Nouns have three states: the absolute, construct, & emphatic.

The **fact** is that the original sacred Old Testament scriptures were translated more than once. As generations went by & as language evolved & Israel was affected by the evolution of languages and the Babylonian and Assyrian captivity, the scriptures were translated into the language of each era. For example, the scriptures were eventually translated into Greek during the Greek & Roman Empire and then eventually into Latin during the time that the Roman Catholic Church was at its height in world domination. Eventually it was translated into German by Martin Luther who greatly persecuted the Jewish people. Then eventually the bible was translated into English, but it was **old** English due to the language of the time. Eventually into modern English with the New King James & other modern versions. Time & evolution of languages changed the language of the bible though different eras. The same was true during the earlier eras.

http://en.wikipedia.org/wiki/Biblical_Hebrew The scriptures were originally written in "Old-Paleo Hebrew" (*true Hebrew*) then eventually translated into a Jewish dialect of the Babylonian language of Chaldean/Aramaic. Aramaic, which is actually Assyrian, the language of Assyria & Babylon, was adopted by

the Hebrews when taken captive to Assyria & Babylon. Aramaic replaced ancient Paleo-Hebrew. Examine very closely any hard copy of the Strong's Concordance. Notice the "Hebrew" dictionary in the back of the book. Notice how it says "Hebrew and Chaldean Dictionary". Then pick **any page** of that Hebrew/Chaldean dictionary. **Any page.** Look at the words on the page. Notice how it says "(Chaldean Origin)" for not just one word but several words, on **every page** of the old testament words! The common claim is that the Aramaic language is used only in the books of Daniel, Ezra and a few other places in the bible. However, if you **really** study & examine all the facts, **all** of the Strong's Concordance Dictionary of "Hebrew" words are actually of the Aramaic, Babylonian, Chaldean or Assyrian languages, **not true Hebrew**. Chaldean was the [11th dynasty of Babylon](#). Chaldean was the empire of Babylon during the Babylonian captivity of the Hebrew people. It is at that time that the original scriptures were translated into Aramaic/Babylonian/Chaldean/Syrian. The Aramaic translation of scripture was called the Targum. [Major Proof Source 1](#). [Source 2](#). [Source 3](#). The language of the Hebrew People changed from Hebrew to the Chaldean language which is actually Assyrian. Concerning when Ptolemy of Egypt was going to translate the bible into Greek, The respected Jewish historian, Josephus, said in his book "The Antiquities of The Jews" Book 12, Chapter 2, (page 309 in my copy which is copyright 1987 Hendrickson Publishers) "...will cause no small pain in getting them translated into the Greek tongue: (15) that the character in which they are written seems to be like to that which is the proper character of the Syrians, and that its sound, when pronounced, is like to theirs also..."

What does "Aramaic" mean?

It means "Assyrian"! Aram is just another ancient name for Syria. Aram is Aramaic or Assyrian.

- <http://www.blueletterbible.org/lang/lexicon/lexicon.cfm?Strong's=H758&t=KJV>
- [http://en.wikipedia.org/wiki/Aram_\(biblical_region\)](http://en.wikipedia.org/wiki/Aram_(biblical_region))
- http://en.wikipedia.org/wiki/Aramaic_language
- http://en.wikipedia.org/wiki/Jewish_Babylonian_Aramaic

Therefore, Strong's concordance doesn't point to true Hebrew. It points to the Assyrian language. The Israelites adopted Chaldean (Babylonian/Aramaic/Assyrian) words & religious beliefs. The word "Chaldean" means "moon" or "[moon worshippers](#)". Smith's Bible Dictionary 1878-1895 (which I personally own a copy of) on page 52 under the word "Chaldea", says that Chaldea means moon in Armenian. Armenian is another language that descended [from Aramaic](#) and is closely related to the language of the so called Hebrew of Strong's Concordance & the corrupted Babylonian translation of Holy scriptures. If Chaldean means moon or moon worshippers, then the Chaldean language is the language of the moon worshippers. The word Chaldea also means Astrology or an astrologer. It is the language of wicca. Witches actually chant the letters. Something else very interesting to me is the meaning of the words following Chaldean in Strong's Concordance. The number of confirmations related to the word Chaldean is astounding! H3778 astrologer, 3779 magian, 3780 covering the flesh, 3781 axe, 3782 fall fail cast down stumble ruin, 3783 ruin fall, 3784 whisper a spell, to enchant (as to chant the 4 letters YHWH), sorcerer, witch 3785 witchcraft, 3786 witchcraft, 3787 prosper, 3788 success, 3789 to engrave to write to inscribe to record, 3790 write, 3791 something written scripture, 3792 writing, 3793 letter or other mark branded on skin, 3805 capital of a column chapter (as in the [deadly head wound revelation](#)), 3803 crown besiege restrain self, 3806 to butt or pound bray (as in the [red bray horse of Revelation 6](#)), 3807 strike, beat down to pieces break in pieces destroy stamp (as in the action of the end time Son of Perdition empire upon the whole earth).

Now, let's get one thing straight, there is no such thing as a "pagan language" or a "holy language". All languages are cousins. However, there are certain words that refer to pagan gods/demons. Both the Hebrew roots "sacred names" believers and I agree that there are certain names that we must avoid & never use to refer to the **True** Almighty Holy Creator, because there are names that actually are connected & originated with the worship of pagan gods. Our differences lay in the question of **what names?**

What Was Originally Written?

Let's take a look at how the name of the creator was written in the Paleo-Hebrew language in the scrolls of the oldest known fragments of the Old Testament. In these first 2 images, the scrolls were written in Aramaic. But when they wrote the name of the creator/God, they wrote his name in Paleo-Hebrew. This is why his name really stands out and appears different from the surrounding text. This is because these scribes understood that the holy name of The Almighty should never be translated or corrupted, changed or altered in any way. When they wrote the creator's name, they were sure to write it the original way!

This first image is of the book of Psalms in the Dead Sea Scrolls, found in cave #11. This image shows columns 20 through 24 of the Psalms Scroll from Qumran Cave 11. These columns include text from: Psalm 139 Psalm 137, Psalm 138, a psalm that is not found in any Masoretic Text but is known from the Greek Septuagint of Ben Sira 51 (Ecclesiasticus), a non-canonical Psalm called "Apostrophe to Zion:", Psalm 93, Psalm 141, Psalm 133, Psalm 144, and a Psalm known from the Syriac version of the bible (Syriac Psalm 3). Psalm 141 (verses 5-10) are the first 6 lines from the top of the second column from the left, after that you have Psalm 133 for the next 5 lines followed by Psalm 144. [Source](#)

You can click on this image to view larger.

The name of the creator is circled in the image above and underlined in the image below.

This next image is of a fragment called "11Q5". It dates to around 100 BC. It has Psalms 121 and 122. You can

click on it to see it larger.

1. Reading from right to left, the first letter is the ancient Hebrew Jot/Jota/Jud. Y name followers erroneously call it the "Yod" because they are focusing on letters & sounds of the Assyrian language. It looks like Z with a line through it. But it does **not** have the modern English Z sound. According to what other sound it was connected to in a word, it could have the sound of J, I or E. Since it was connected with the vowel sound of the next letter in the divine name, it must have the J sound. A website at www.orbilat.com/Languages/Latin/Grammar/Latin-Pronunciation-Syllable-Accent.html shows the mandatory rules of the Latin language which most truth seekers would be very weary of. But the fact is that Latin is just a form of Greek, which is a form of Paleo Hebrew as I have already proven earlier in this article. Latin is **not** demonic. It's just an ancient language related to Paleo Hebrew. (The rule of J sound applied to Latin, Greek & Paleo Hebrew.) In the source article, the first mention of the letter sound of J, it includes this quote:

"For convenience we will use the letter j (named jota) to mark the [j] sound, as it is common from the Middle Ages onward".

It does not say that the j sound started in the middle ages, but was common in the middle ages.

Then at the bottom of the article it says:

"By the epoch of the Late empire (3rd and 4th c.) the diphthongs ae and oe were equalized with the short e and au with the short o. The pronunciation of y coincided with that of i and by then the letter name ypsilon was replaced in the popular language by i graeca Greek i."

It does **not** say that it was pronounced Y in every word and combination of letters. The first section mentioned

already declared rules for when it was pronounced with J sound. Nothing in the bottom section demands a Y sound in every word possible.

Then it says:

"The most important phonetic change of that period was, however, the palatalization of c and g before the anterior vowels e and i and the equalized with them ae, oe and y...

G was palatalized in all Latin speaking world to [Dʒ]. The consonantal i [j] was also transformed to [Dʒ]."

The only thing this says is that in the Latin language the J sound became mandatory in the 3-4th century, which is more than 1500-1600 years earlier than the Y name people admit! The article doesn't prove beyond any doubt what sounds existed and did not exist in the life time of Jesus and in the B.C. years. But it does prove that the J sound is extremely earlier than the Y name people want to confess. The article does not prove that the Y sound was required in every word before the 3rd century. The article does enough to cause a huge earthquake in the foundation of the Y name doctrine. Where did these rules come from in the 3rd century A.D.? Of course, it would have come from the usage of words **before** the 3rd century. Words, sounds and letters are always used by the population **before** declared mandatory by the so called experts. Also, there were no audio recordings in the ancient civilizations. The study of ancient languages is complex and ever evolving. We must keep digging and looking; and examine all of the evidence, not just one article or one source. Please take the time to examine all of the evidence that I present in this article. If you are sincere about knowing the truth you must look at more than just one piece of the puzzle. Consider the tons of proof presented below!

Y name followers claim there were *no* vowels in Hebrew. But how could you write, read or speak without vowels? That's nonsense! Archaeological discoveries of coins, etc prove that there were vowels. The well respected historian, Josephus, who lived in the first century, said that the priest of the first temple wore the name of God on their headbands & that it was 4 vowels! Source: "War of the Jews" 5.5.7. by Flavius Josephus. Josephus was Jewish, the son of a priest & extremely well educated & would have known such things.

2. The next letter looks like a backward E or F. It had the E or EH sound.

3. The next letter almost looks like Y but the top portion of the letter looks like C instead of a pointed Y. In fact, the letter C was sometimes used to represent a sound similar to the S sound. In some scrolls, it looks more like a U on the top instead of C. In other scrolls it looks like a S on top of the stick. So whether it looked like a S, C or U, in all cases there are curves. This is **not** a Y like we use today in English & also not the Yod they use in Assyrian Aramaic. If we look at all 4 letters of the divine name & render this letter as only a U sound without any consonant sound, then we would have 4 vowel sounds together which would be impossible to speak as a name. The fact is that some letters represented both vowel & consonant sounds, such as is true with the first letter. Language & how to write was constantly evolving & continues to evolve even to this day. In ancient times, they were having a problem determining how to write sounds such as this sound of the **S sound in combo with the U sound**. Therefore it sometimes looked like a U and sometimes looked like a S.

4. Then, the final letter is the backward E again.

So in conclusion, we have the 4 letters "JEUE" or "JESE" but the truth is that the Hebrew sound of the 3rd letter would need to be represented by 2 English letters for us modern day speakers. Thus in our modern way of writing, it would be "**JESUE**". JEUE/JESE is the original 4 letters written for the Creator's Name. Remember that the 3rd letter has both a S & U sound. English doesn't have **one** letter that adequately represents the 3rd letter, so we must use both the S & U letters. (JESUE is also pronounced with 2 syllables. The 1st syllable sounds like the plural of the letter G, as in saying the sentence "Google has 2 G's". But it would **not** be correct to write the letter G in this name, but it has the sound. The 2nd syllable continues & confirms the S sound of the plural of the G sound, and then moves onto the short u sound of the word "us" without the final S of the

word "us". Thus we have the total sound of "G's-u" without a long U, but rather with a short u sound.) All 4 letters of JEUE were considered "vowels", even the J because the Jot/Jota/iota character could be used to have either the J sound, or the E or I sound, depending on the other sounds within the word. Since it was connected with 3 other vowels, it must have the J sound, that's the rule of language. The U was also a semi-vowel having both the short u vowel sound & consonant S sound. But all 4 letters were considered vowels since they had the connection of possible vowel sounds in certain cases. But it would be illogical to think that we could **pronounce** the holy name as 4 vowel sounds, even though it was written with 4 vowels. We must have consonant sounds in a word/name. It also would not make any sense to pronounce JEUE with a consonant sound at the beginning followed by 3 vowels without having another consonant sound. In this particular structure of letters, we really need 2 consonant sounds. So we must pronounce the U/S with both the U and S sounds. Thus we have the name of JESUE, **not** pronounced "JE-SUE" but rather "JE's-u" or "G's-u". Remember that the u is short, not long, and is the same short u sound in "us". The problem with Y name followers is that they try to **force** every Assyrian so called "Hebrew" pronunciation upon every Paleo-Hebrew letter, which is impossible to accurately do, because Paleo-Hebrew and Aramaic are 2 distinct, mostly unrelated languages, as shown in the charts on this page. As I have proven, it is more accurate to place ancient Greek pronunciations upon Paleo-Hebrew.

Remembering S Sounds:

We know that after the Jewish priests transitioned to the Aramaic language & to the Assyrian name of YHWH, that even though the original divine name was banned by Babylon & by the Jewish government rulers, the priests remembered the S sound in the middle of the original true divine name by making the Aramaic S letter with their hands when they performed priestly blessings. [Source](#). They were not allowed to write & speak the divine name, but they used sign language to remember the S sound in the middle of the divine name. There is also reason to believe that they might have even remembered the S sound both in the middle and at the end! The rule of the Greek language, (which actually is the Paleo-Hebrew language because history shows that the Greeks adopted their language from the Hebrews) is that you add the S sound at the end of JESUE to show that it's a male masculine word. Then the u sound blends in with the final E to make one sound mixed with the final S sound, thus we have "Jesus", pronounced "G's-us". Therefore, to say the ancient Paleo-Hebrew divine name of the creator & properly applying all of the rules of language, we should pronounce the ancient Hebrew divine name as "Jesus". Greek is Hebrew. Jesus is Hebrew. Also, English comes mostly from Greek which is Paleo-Hebrew. The USA & British Commonwealth are the modern descendants of the "lost" 10 tribes of Israel & so English still maintains a lot of Hebrew sounds. [Source](#). Even if you disagree, please at least take the time to finish reading this article because soon I'm going to give you **solid, undeniable proof** about the origins of the Y names of Yeshua, Yahweh, YHWH, Yahshua, etc.

Exodus 3:14 The Name At The Burning Bush

The other main scripture all of us refer to in the discussion of sacred names or concerning the Name of the Creator is **Exodus 3:14** which in the KJV says "And God said unto Moses, I Am That I Am: and he said, Thus shalt thou say unto the children of Israel, I Am hath sent me unto you."

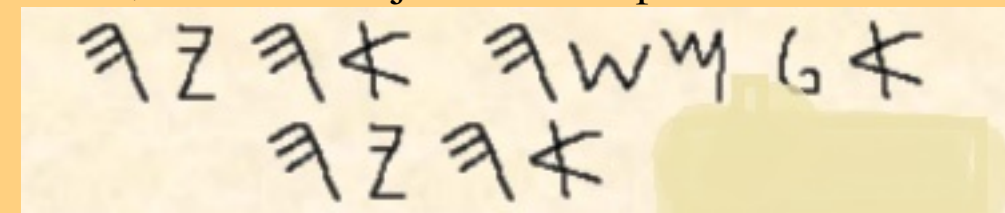

According to Strong's Concordance (a dictionary of the bible), which is actually a concordance of the Babylonian Aramaic Language (when referring to the Old Testament), the words "I AM That I AM" comes from H1961 H1961: "hayah hayah". However in the true Hebrew scriptures of Exo.3:14, it actually said:

"EHJEH ASHER EHJEH". (*Pronounced I-JE Asher I-JE*)

- [Proof #1](#), [Proof #2](#)

Contrary to what some people say, it was **not** "hayah hayah" and **not** "I Am, I Am". But regardless of what the above sources claim, it also was **not** "EHYEH ASHER EHYEH" because there was no Aramaic or Yiddish letter Y in Paleo-Hebrew.

The following image shows what it would look like in Paleo-Hebrew. Note: This is **not** an image of an actual scroll, but rather is just an example of how it would have been written.

The most important part of this sentence is "EHJEH". So I will explain each letter. In this image, you see 3 words. The 1st word & 3rd word is "EHJEH". Reading from right to left, in the 1st & last word, the last letter is looks like a capital letter A on its side, pointing left. Most of the time, that is actually the letter A. But not always. Thousands of years ago, the sounds of both E and A were interchangeable. And there was more than one possible letter/character for the e/E sounds. The next letter, working to the left, looks like a backward F with an extra line, or perhaps like the letter E backwards with an extra long handle. It had the possible sounds of E or EH. The next letter looks like Z with a line through it. But it's the ancient Jota/Jot/Jud that had the sounds of J, I and E. All of these letters depend how what letter and sound is associated next to it. In this case, it has the J sound because of its association with the over vowels in this word. And then the final letter is the backward F/E looking character again. Therefore we have "EHJEH". It's pronounced like the 2 letters "I, G", but the letter G is not an accurate way to write the word/sentence. But it has the sound of saying the 2 English letters "I" and "G". God was saying "I am JE", which is the more accurate way to write this sentence. But He did not use the word "am" in the middle. He did **not** say "I AM" because thousands of years ago, they did **not** use so many words in a sentence. They spoke very short sentences, with few words. He said "I JE", which means "I am JE". Now, placing this phrase into the entire 3 word sentence, we have:

"EHJEH ASHER EHJEH" It's hard to translate into just 3 or 4 English words. It means "I am JEH (the h is silent so it's pronounced JE, the same sound in Jesus) the beginning, currently self-existing, and eternally existing, JEH".

He wasn't saying that His Name was "EHJEH ASHER EHJEH", but rather He was speaking a sentence that basically says "I am JE the beginning, currently self-existing, and eternally existing, JE"

Or in other words, He was saying "I am JE, The Alpha & the Omega, the beginning and the end, the eternal".

He said that His Name is JE as in Jesus, JE with us, God with us. JE is short for Jesus. In fact, many early New Testaments even abbreviated Jesus as "JE".

"EHJEH ASHER EHJEH" is only part of what He said in Exodus 3:14. After this, He said "THUS SHALL YOU SAY TO THE CHILDREN OF ISRAEL, 'JESUS HAS SENT ME TO YOU' " Therefore He first explained **Who** He is (basically 'Alpha & Omega', a very primitive way that man had already known the Creator) in connection with the JE abbreviation of His name, and then He gave the full name!

Considering All Things:

- Considering EHJEH "I (am) JE" in Exodus 3:14 & that it meant that He is the Alpha & Omega; and JESUS said He is the A&O in the book of Revelation,
- in Exo.3:14, He said both JE and JESUE/JESUS,
- and "JESUE/Jesus" in Exo.6:3 and most other places in the bible,

- and "Jesus" abbreviated as just "JE" in many early New Testaments,
- and the name of "Jesus" in both early & modern New Testaments, the conclusion must be that the creator's name in both the Old Testament & New Testament, in Paleo Hebrew, Greek & English is "Jesus". His name does **not** change in different languages, because He is the creator of all the Earth and all races. It is wrong to try to change the pronunciation of the divine name. His name is **Holy** & should not be changed to a different pronunciation in any language. Jesus is his Hebrew name. We respect his Hebrew name & have no need to alter it.

More about YHWH & What It Means in Assyrian Babylonian Aramaic:

The original scriptures **did not** have the four letter tetragrammaton of YHWH. The 4 letters shown here  are "Modern Hebrew" which is really Babylonian Aramaic. They did **not** appear in the **original** scriptures. Moses did **not** write them. They are **not** Paleo-Hebrew. They are Aramaic (Modern Hebrew) which did not exist during Moses lifetime. Moses would have written during 1446-1406 B.C. in old Paleo-Hebrew. [The language of Aramaic, the language of "YHWH/YHVH", did not exist until around 900 B.C.](#) See Chart #1 and notice the time line at the bottom of that chart. So, how can we say that Moses wrote the Aramaic letters of YHWH/YHVH? We can't! We must admit that the scriptures were translated from one language to another language during each era, just as we witness in our modern times. We must admit that the original name that God spoke (and Moses wrote) was **not** the 4 letters YHWH/YHVH which people then translate into Yahweh, Yahshua, Yeshua, Jehovah & a host of other names other than Jesus. The 4 letters YHWH/YHVH & all the translations from it are all Babylonian Aramaic. YHWH/YHVH is actually the tetragrammaton name of Baal. Even the Encyclopedia Britannica 1958 edition, Volume 12, page 996 says: "...Yahweh is not a Hebrew name".

When Israel was taken away into Assyria, Babylon & Egypt, they adapted to many Babylonian customs, traditions, religious beliefs and use of words. The Assyrians & Babylonians even moved into the land of Israel. (2 Kings 17:24) Before Babylon, they kept the Sabbath from [sunrise to sunrise](#). When they came out of Babylon, they were observing Sabbath from sunset to sunset. They adopted Babylonian names of months. They had adopted the Babylonian Talmud. They also adopted the names of Babylonian gods and Kabbalah witchcraft. Smith bible Dictionary of 1878, page 207 says that moon worship was re-introduced into Israel by Manasseh around 698 B.C. They called the moon the Queen of Heaven. People offered drink offerings and cakes. This is all related to [the pagan roots of Christmas](#) and the [pagan roots of easter](#). They even changed their alphabet -- from the Paleo-Hebrew to the Aramaic alphabet, reflecting their preference for communicating in Aramaic rather than in Hebrew. [Source](#). In Babylon, they also translated the Paleo-Hebrew scriptures into Chaldean (Babylonian) Aramaic.

So, we therefore see the names of Babylonian gods inserted in place of the true original sacred name that God and Moses spoke. Chaldean Babylonian Aramaic replaced ancient Paleo-Hebrew and nearly all existing manuscripts, including the [Masoretic text](#) and the majority of the Dead Sea Scrolls are in Babylonian Aramaic. Jesus, the Apostles & the early Christian Church **never** used or quoted from the King James Version Bible created in 1611 under influence of the Roman Catholic pope. Jesus, the Apostles & the early Christian Church **never** used or quoted from any of the Masoretic Text which was copied, edited & distributed by a group of Jews known as the Masoretes between the 7th and 10th centuries A.D. But Jesus, the Apostles & early Christian Church **did** use & quoted from the Greek Septuagint. The Masoretic text also leaves out entire books that were included in the Holy Greek Septuagint.

Yah refers to the Egyptian moon god. [Source 1](#), [Source 2](#), [Source 3](#) and is also related to Osiris the Egyptian god of the dead which I have recently been writing about. The Almighty God Creator of Heaven and Earth has been bringing all the pieces of the puzzle together, teaching and confirming these truths. During the Assyrian and Babylonian invasions of Israel, Jerusalem & Samaria, the Israelites were not only carried off into Assyria

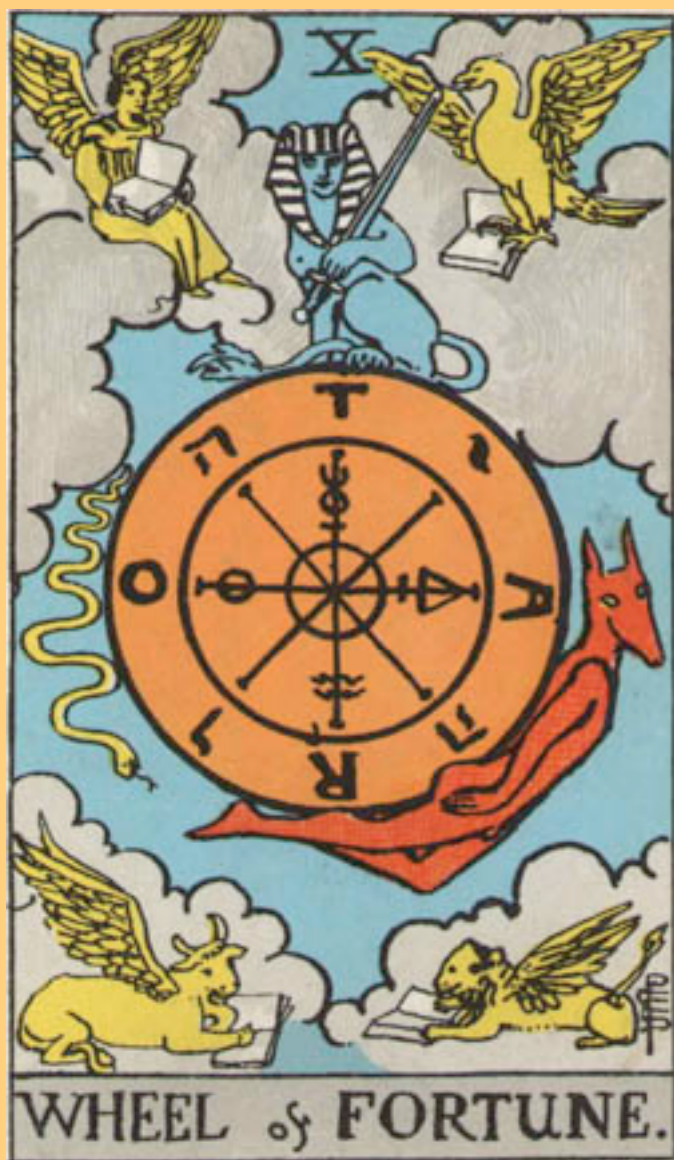

and Babylon but also in Egypt. Also, much of the Assyrian and Babylonian beliefs came from [ancient Egypt](#).

Iah, transliterated as Yah, Jah, Jah(w), is a god of the moon in ancient Egyptian religion. His name simply means moon. Quote: "By the New Kingdom he was less prominent as a moon deity than the other gods with lunar connections, Thoth and Khonsu. As a result of the functional connection between them he could be identified with either of those deities. Therefore, Iah or Yah can be identified with Thoth or Thot, a god of the moon." End Quote.

Refer back to [Source 1](#) above and check out this next [Source, you will need to very easily search their website for the word Thot](#). Iah (Yah) also seems to have assumed the lunar aspect of Thoth, god of knowledge, writing & calculation; the segments of the moon were used as fractional symbols in writing. Certainly one of the most important aspects of Thot's complex nature is that of a god of writing and of the **scribes**. Thot is credited by the Ancient Egyptians with the invention of the hieroglyphic writing, the "words of god", evidenced in his epithet "the one who created writing". Therefore, it's easy to understand that Yah is the pagan god of pagan words & pagan scribes! He can often be seen holding a reed pen & a scribe's palette! Among his many epithets "lord of the reed pen" clearly shows his association with these attributes of writing. It is therefore not surprising to see the scribe's palette being presented to Thot, or one of the gods associated with him, in ritual scenes.

[Yah and Thoth is related to the pagan moon god named "Sin"](#).

Although the names of the moon god was Sin, Thot, Thoth, Yah, Pan, etc...., his title was Al-ilah, meaning "the deity", meaning that he was considered the chief god above all gods. The moon god called Al-ilah was shortened to Allah. The pagans used "Allah" in the names they gave their

Both Chart #4 (left) and Chart #1 (top of page) shows that Greek and Paleo-Hebrew are closely related. Whereas "Modern Hebrew" (& Strong's Concordance Hebrew) is closely related to Assyrian Aramaic.

Greek & Paleo-Hebrew look **and** sound almost identical. Notice also that Paleo-Hebrew did have vowels!

The Hebrew roots sacred name followers claim that Hebrew did not have vowels. They are talking about "modern" Hebrew which is really Chaldean Aramaic & did not even exist during the lifetime of Moses! Paleo-Hebrew did have vowels and also had a "J" sound as well!

The truth is that Greek is much closer to the ancient language of the bible than what modern Hebrew is. Jesus & the apostles used the [Greek Septuagint](#) of the Old Testament. It was often quoted in the New Testament by

Jesus & the Apostle Paul. Jesus called himself the Alpha and Omega. Hebrew roots people may have a problem with Greek but Jesus did **not** have a problem with Greek! It was almost identical to the old Paleo-Hebrew! Greek & Old Hebrew look and sound alike. God has preserved His Word through the Greek Septuagint, what fragments we have of the Old Paleo-Hebrew & through the [Alexanderian Text](#).

Jehovah also Pagan

- **No** Jehovah in Hebrew or Aramaic Scrolls.
- **No** Jehovah in Greek Scrolls or codex's.
- **No** Jehovah in Greek Septuagint second century BC.
- **No** Jehovah in Codex Vaticanus 325-350 AD.
- **No** Jehovah in Latin Vulgate 405 AD.
- **No** Jehovah in Wycliffe's Bible 1380-1388 AD.

The name "Jehovah" first appeared in a **bible** in 1530, by William Tyndale. Up until 1530, the word Jehovah **never** appeared in **any** bible in any translation. **Not** in the times of the old testament prophets and not in the time of Jesus and the Apostles. **Never** was Jehovah in the bible until it was added in 1530. The word "Jehovah" (*and Jehovahjireh, Jehovahnissi, Jehovahshalom*) appears a total of only 7 times in the entire King James Bible, all 7 times in the Old Testament. The Greek Septuagint **never** uses the word "Jehovah". Jesus and the apostles **never** used the word "Jehovah". The word never even existed during the original writings of the Old Testament & New Testament! [Source](#).

The name Jehovah was never written or pronounced in any book, scripture, scroll, church or person in all of human history until the 1500's. It was invented by Catholic monks. This is proven **fact** of history. Stop ignoring the facts and stop using Catholic invented name of Jehovah. Furthermore those Catholics invented the name of jehovah by using the satanic chant of yhvh. So not only is jehovah an invented name but it's satanic witchcraft. This is total **fact**.

Strong's Concordance says that the word "Jehovah" is Strong's #H3068 - Yehovah. It also points us to the YHWH/YHVH. However, we must remember that Strong's Concordance does **not** point us to the original words of the Old Testament. It only points us to the Aramaic words from the Babylonian Translation of the Old Testament. **Not** to the original scriptures when referring to the Old Testament. The word "Yehovah" and the YHWH/YHVH was **never** in the original scriptures. It only appeared after the Israelites came out of Babylon. Remember that we have already proven that the YHWH/YHVH is witchcraft. The Israelites adopted Kabbalah witchcraft while in Babylon. They translated the Old Testament scriptures into the Babylonian Aramaic Language using Babylonian words that referred to Babylonian gods. The Israelites removed the True Name of God and replaced it with their Babylonian names for the false gods that they were following. (**Judges 2:11**). When the Old Testament was eventually translated into Greek in the Greek Septuagint, they needed to remove all of the Satanic names of YHWH. But neither were they allowed to re-insert the original holy name of JESUS. Therefore they inserted the word "Kurios" which means LORD. This was supposedly done to keep people from profaning the name of God.

Let's learn more about the word "Jehovah". The suffix "hovah" is identical to #1943 in Strong's Dictionary and has the meaning of "ruin, mischief." It is another form of #1942, 'havvah', which is translated "calamity, iniquity, mischief, mischievous (thing), naughtiness, naughty, noisome, perverse thing, substance, very wickedness." Put the two (Je + hovah) together and you get "God of ruin, mischief, calamity, perversion, and wickedness".

Let's examine **Exodus 6:3** in the King James Version: And I appeared unto Abraham, unto Isaac, and unto Jacob by the name of God Almighty (*Elshaddai*), but by My name JEHOVAH (*originally JESUS*) was I not

known to them.

In English, this verse does not make sense because in [Gen 22:14](#) Abraham supposedly called the name of the place where He was going to sacrifice Isaac "Jehovahjireh". And Abraham called the name of that place Jehovahjireh: as it is said [to] this day, In the mount of the LORD it shall be seen".

How could Abraham name the place after Jehovah if [Exodus 6:3](#) says that Abraham had previously never known God by that name!

In [Judges 2:11](#), it tells us that the children of Israel did evil in the sight of the LORD, and served Baalim! Who is "Baalim"? Baalim is Strong's H1168 which is the same as Strong's H1167. In [Hosea 2:16](#) it says: And it shall be at that day, saith the LORD, that thou shalt call me Ishi (*husband*); and shalt call me no more Baali ([a deity in the northern kingdom, variation of the name 'Baal'](#))

"Baali" in this verse is H1180 which comes from 1167. 1180 is a [symbolic name for Yah and Jehovah](#).

Therefore, the bible tells us that the Israelites forsook the true God **Jesus** and served Baalim/Yah/Jehovah! [Hosea 2:17](#) For I will take away the names of Baalim out of her mouth, and they shall no more be remembered by their name.

Context of verse 16-17 is pagan names! It is not talking about English titles of "lord". It is talking about the Babylonian Aramaic Hebrew names of Yah, Yehovah & Jehovah!

- [Learn more history of the words Yah, Jah, Yaho, Y-ha-ho, Jah-Hovah, Yah-Havvah, Yah-Hovah and Jehovah. Yes, Yahoo is a pagan name!](#)
- [For even more documentation on those words and YHWH](#)

Hallelujah and Alleluia

The word "hallelujah" is not even in the King James Version Bible! Only the word "alleluia", only 4 times, only in the Book of Revelation. But even then, it is mistranslated. [Hallelujah](#)/halleluyah/Alleluia = 'praise yah' = Praise the moon god. [Revelation 19](#) word "alleluia" in Strong's Concordance points to Strong's G239 hallelouia of Hebrew (Babylonian Aramaic) origin from H1984 and H3050. H1984 means to Praise. H3050 means Yah. Hallelujah and Alleluia means to Praise Yah (the moon god, Allah).

Revelation 19:1 alleluia/hallelujah is ἀλληλουϊά. [Blue letter bible, Greek Lexicon: G239](#). Strong's Concordance says it Of Hebrew (actually Assyrian Aramaic) origin from the 2 words: [לָלַח \(H1984\)](#) and [יָהּ \(H3050\)](#). Yet we know that is a lie because in Revelation 19:1 it does **not** say לָלַח (H1984) and יָהּ (H3050). It says ἀλληλουϊά. The Greek and Assyrian Aramaic letters do **not** match here and they do not come from one another. It is impossible for Greek words to come from Assyrian. These 2 languages are **not** related, therefore it is impossible for G239 to come from H1984 and H3050.

[Revelation 19:1](#) is a quotation of what we will be saying in Heaven at the Marriage supper. Why would we be speaking Assyrian? Of course we will **not** be speaking Assyrian. We will be speaking Greek which is the original Holy Hebrew language. When we click on H3050 it says it is Yah. So it means to praise Yah. We know that Yah is Allah. I have many links in this article that proves that beyond any doubt. It makes plenty of sense that Assyrian people would say Praise Allah. When we click on 1984, it means to shine or give praise. It is the word halal. But this is **not** to be confused with the word halal as in the halal mark of the beast. [The halal mark of the beast](#) is a completely different word. It is [H2490](#).

All the other quotations of the bible of what is said in Heaven is in the Greek language. So that tells me that someone has inserted Assyrian words here.

So what should be in Revelation 19:1 ? Click on 1984 again: Hebrew Lexicon: [H1984](#) Look at this section on the above page: Gesenius' Hebrew-Chaldee Lexicon. It says it is the sound ellelell. That is the first part of the word. The last part is more confusing. It looks like "ia" but that "i" looking character can be the J sound. So I think it's Ja or actually Je. There are **many** cases where bible scholars have misinterpreted the E as an A. It only makes sense to me that it's JE. I cannot prove right now 100% that it ends with the letter E. That's my only weak point in this subject. But why would we be praising JA when the entire bible says Praise JE and Praise JEUE/Jesus? Therefore I believe that the word that they wrote was ELELUJE, which means "Praise Jesus", which lines up with all other scripture. It is pronounced "el-e-lu-je" **or** else we could just speak English and say "Praise Jesus".

Major Confirmation that Hallelujah/Halleluyah/Alleluia *should* be pronounced as "El-E-LU-JE" as in "El-E-Lu-Jesus" which means "Praise Jesus":

After posting the revelation about "Eleluje" and then sharing this with my wife, She said "that sounds like Eulogy". I said, "Hmm, it does. Look it up!" It turns out that "eulogy" does **not** mean just a speech at a funeral, but rather a speech of **praise** to anyone **alive** or dead. It means praise! Then after learning what a eulogy really is, a speech of praise, I searched to see if it was a Greek word, and yes, it is a Greek word used 16 times in the New Testament. It is the Strong's Greek word [#2129](#) εὐλογία eulogia which means "Praise" although KJV translates it as blessing (11x), bounty (2x), bountifully (with G1909) (2x), fair speech (1x). Eulogia is the Greek word used in Praise of Jesus in **Revelation 5:12, 13** and **7:12** but translated as blessing.

Look at the Greek Word Eulogia: εὐλογία Look at alleluia ἀλληλουϊά Alleluia is longer because it's two words: Praise Yah (the devil Allah). Yet alleluia and Eulogia looks similiar because of the common "praise". Knowing that Gesenius' Hebrew-Chaldee Lexicon says that alleluia really should sound like "ellelell", and correcting mistranslations and language confusion, and knowing that we should never praise Allah, but only praise Jesus, we finally conclude that what John wrote in Revelation 19 should actually be pronounced as "El-E-Lu-JE" which sounds like "Eulogia" and "JE" (short for Jesus) combined into one word to say "Praise Jesus" in Hebrew/Greek = "ELELUJE"!

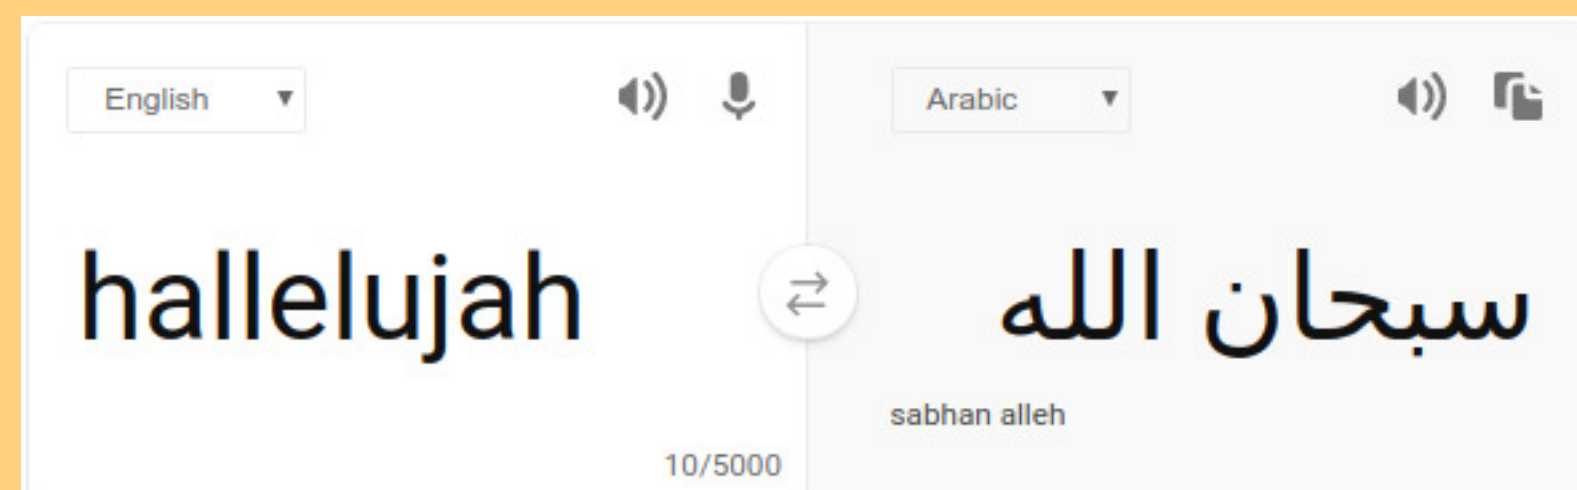

Muslims Recognize Hallelujah as a Praise to Allah:

They pronounce it differently but they do recognize it as Islamic praise.

- <https://www.youtube.com/watch?v=5-0ZRaYjanc>

- <https://www.youtube.com/watch?v=JHcqm6OvhcQ>

And notice how he does **not** use "Allah" for the word "god". Allah is **not** the Arabic word for god. Allah is the name of the Islamic demon god.

Look at this picture where Hallelujah is translated into Arabic as "praise Allah". Read the Arabic from right to left. The word on the left is Allah. You can confirm this by reading the article I wrote about the word "Allah" being part of the 666 that John wrote in [Revelation 13:18](#). [Click here to read that article](#).

- [Video: Jewish Rabbi Worships Allah](#)
- [Video: Allah The God of Israel By Jews, Yahweh/Allah are the same](#)
- [Video: Obama's pastor, Jeremiah Wright says Yahweh & Allah are Same God](#)
- [Video: Jew says Allah is God](#)

Selah Means Praise the God of Destruction (Praise Allah)

The word "Selah" appears 71 times in the book of Psalms. It is a **very** mysterious word. Bible scholars seem to be very puzzled about it and they do **not** agree on its meaning. Most people have been taught that it means "to pause", meaning to take a pause to reflect upon what was said. But that's only one possibility and is actually unlikely. The fact is that "selah" is not even Hebrew. It is Assyrian Aramaic. It did **not** appear in the original scriptures, because the original old testament was **not** Assyrian Aramaic, but rather Paleo-Hebrew. In fact, the NIV accurately removes "Selah" from the scriptures and places it only in the footnotes. Their reasoning is that selah was a musical instruction, rather than something that was meant to be read aloud as part of the actual song. Good reasoning if it really means pause. The Latin Vulgate also does **not** include the word "selah". It was not until the 1500's that the translator Pagninus, who was deeply influenced by Jewish Babylonian witchcraft (Kaballah) & believed that the form of words had a certain power and significance, that "selah" was reintroduced into Latin translations, and from there found its way into the King James Bible.

After Jesus showed me that we should say "El-e-lu-JE" rather than "hallelujah", He then gave me very strong discernment that "selah" is related to "Allah". So I looked it up and sure enough, Jesus gave me some **major** confirmations. First of all, it's Assyrian. **Not** Hebrew.

According to the [1907 Jewish Encyclopedia](#) "selah" is highly debated and confusing, but one of the theories is that it is a **eulogy/praise**. So immediately that is a major confirmation. Praise who? It's **Assyrian**. Therefore it is praising Allah! The article also concludes that it does **not** mean "pause" but rather "Destroy"! We know that hallelujah means praise Allah, or praise the god of destruction. Therefore there is a major connection between hallelujah and selah. Both are also said to be contracted words. Selah is also said to be a word made from initials. Just as yahweh is made from yhwh. The Jewish Encyclopedia also says that it could mean "Delete" as in that it was a note that a person made to a scroll to remind them to delete something, to delete a word or a verse. Perhaps "selah" is a mark letting us know that a true praise of God was removed and replaced with selah or that a verse/word was deleted or was meant to be deleted. I also found that selah could also be spelled "salah" which is the pronunciation of [Salat, the Islamic name for prayer](#). BlueLetterBible says that selah is Strong's H5542 - celah which comes from Strong's H5541 - calah which means valued (2x), trodden down (1x), trodden under foot (1x). If it means to trodden under foot, it's the same as to be made valueless or to destroy or to delete. Yet the context in the book of Psalms shows that it is a eulogy, a praise. Therefore it is praise to Allah, the god of destruction. Salah/selah/salat/alleluja/hallelujah/halleluyah are all the same. It does **not** mean pause. Here is an Islamic article that says selah is the same as salat, to bow and pray to Allah. - <http://www.articlesbase.com/religion-articles/in-bible-and-quran-man-must-prostrate-to-god-3-selah-6381119.html>

The Latin Vulgate used the word "semper" in place of selah. Semper means "always" or "forever". The Holy Greek Septuagint, the translation at the time of Christ, used the word "[diapsalma](#)" which meant "apart from the psalm" which might be thought to be a musical interlude **or** it could have been a notation that something had been deleted there. A person would **not** say "musical interlude", **nor** would they say "selah" which means

praise Allah. They would just simply pause. But Selah does **not** mean pause. Diapsalma means "apart from psalm". Selah does not mean the same. The Assyrian word "Selah" doesn't belong in scripture. Bottom line: What should we say? When reading the book of Psalms and we come across the word "selah", we should not say anything in its place. Even the diapsalma was not meant to be spoken as part of the scripture. It was either an instruction to how to sing the song **or** an acknowledgment that something had been deleted there.

Origin of Word "Amen":

I have repeatedly studied the origin of the word "amen". I realize that there are people that claim that the origin of Amen is the Egyptian god Amen-Ra or Amun. However these claims are not true. I have sincerely examined this issue repeatedly and tested myself repeatedly. The Egyptian god Amun/Amen Ra would have **not** had the letter alpha as we see in amen. But rather in the Egyptian language would have begun with the y sound. The origin of the Egyptian "Amun" god was actually Yah/Yahweh and not amen. The claims that the Egyptian god name was "Amen" is a twist and distortion and misunderstanding of the ancient Egyptian language. The sun god Yah-Ra we know was in relation to Assyrian worship of Yahweh. In Freemasonry we see both the sun god and the moon god on the left and the right side of YHWH. So they are connected. There is no evidence that amen is actually the Egyptian god. Aman/Amen is actually true ancient Paleo-Hebrew and not Egyptian. Whereas both the Egyptians and the Assyrians called their false sun god and the moon god Yah, not Amen/Aman. I realize that books claim that the Egyptian god was Amen. But it's a lie. The Egyptian way of speaking would say Yah-Ra. Not amen.

Jesus called himself "The Amen". He would **not** call himself a pagan name!

Rev.3:14 (AOB) "To the angel of the church in Laodicea write:

The Amen, the faithful and true Witness, the Chief/Ruler of the creation of Theos, says this"

The word "Amen" is found **many** times throughout scripture and is found in **all** of the earliest ancient manuscripts of both Greek and Hebrew, as well as Aramaic. It was never inserted. It's original, and it is true Paleo-Hebrew.

Yahshua/Yeshua Means Egyptian Moon God of the Sky or Heaven

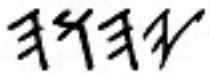

Yah is the Egyptian moon god also known as "Toth". Shu is the Egyptian god of the sky. Put the two words together, you have "Yahshu" or Yahshu, the Egyptian moon god of the sky. Yahshua and all variations of it descend from the pagan moon god name YHWH. Yahshua is also known as Allah. The concordances point Yahshua to the Aramaic/Assyrian witchcraft YHWH. You **cannot** reject yhwh and yahweh and try to hold onto yeshua or yahshua. If yah/yahwah/yhwh are pagan, which very clearly I have already proven, then so is yeshua and yahshua. All these y names are Assyrian, **not** Hebrew and they are **all** pagan.

Yeshua (also spelled Yeshu, Y-shua) is an Assyrian word that means "May His Name be Obliterated".

It is also known as yimakh shemo (machah shem Pslam 109:13, also yimach shemam), a curse placed after the name of particular enemies of the Jewish people. Yimakh Shemo is usually written or spoken after a person's name to say that you wish his name to be blotted out or obliterated from everyones memory. Yeshu (or y-sh"u) is the abbreviation of Yimakh Shemo. Assyrians and Jews say Yeshu. English speaking people say Yeshua and Yahshua. In **Acts 4:7-18** and **Acts 5:27-42** you see the Jewish leaders commanding John and Peter to not preach in the Name of Jesus. Yet the Apostles continued to preach Jesus Name. Following the same pattern of ancient Babylonian and Assyrian kings, the Jewish leaders commanded the Name of the Almighty God to not be

spoken **and** replaced His Real Name with the names of pagan gods in some cases and simply with the word yeshua in other cases. What better way to obliterate someone's Name than to just say yeshu instead of placing it after their Name. http://en.wikipedia.org/wiki/Yimakh_shemo Orthodox Jews call Jesus "Yeshua" as a term of blasphemy against Him: <http://www.hebrew4christians.com/Glossary/Abbreviations/abbreviations.html>

iSawTheLightMinistries.com/sacrednames.html

The Creator knew that the pens of the scribes & translators would be corrupted and even substitute the names of Baal for the True Name and foretold it & even prepared for it.

Jer. 23:26-27 "How long shall this be in the heart of the prophets that prophesy lies? yea, they are prophets of the deceit of their own heart; 27 Which think to cause my people to forget my name by their dreams which they tell every man to his neighbour, as their fathers have forgotten my name for Baal."

Jer. 8:8-9 "How do ye say, We are wise, and the law of the LORD is with us? Lo, certainly in vain made he it; the pen of the scribes is in vain. The wise men are ashamed, they are dismayed and taken: lo, they have rejected the word of the Lord; and what wisdom is in them?"

Many people try to say that God would never allow anyone to corrupt His Holy Word and mistranslate the scriptures. Do we not have unholy translations today? Of course we do. The NIV was written by unrepentant, open homosexuals. The NIV is the official bible of the unholy homosexual metropolitan church. It has been mistranslated. There are other translations called the Queen James Bible and other evil translations. God's Word is Holy and Perfect. **Not** corrupted. However, we **do** have corrupted translations. The King James Version is just one more relatively modern corrupted translation of man. More and more modern translations are further twisting God's Word based on their personal beliefs. What makes you think that man did not do the same thing in earlier generations? The original scriptures were **holy and pure**. Man's translation's are not pure. The translation that the Israelites brought out of Babylon was not pure. God knew that people would add to and take away from the original scriptures and even placed a curse on those that would do it. **Rev. 22:18** "For I testify unto every man that heareth the words of the prophecy of this book, If any man shall add unto these things, God shall add unto him the plagues that are written in this book: 19 And if any man shall take away from the words of the book of this prophecy, God shall take away his part out of the book of life, and out of the holy city, and from the things which are written in this book."

Consider also that the scriptures were actually **lost** and then found again in time of Josiah. **2 Kings 22**

Objection #1

Claim: Jesus Spoke Aramaic.

FACT

Yes, Jesus spoke **some** Aramaic as it was a language of his time. There is nothing wrong with speaking a language. However, He also spoke Greek and did so **much** more than what He did Aramaic. He used the Greek Septuagint Bible and quoted from it. He **never** quoted any version of the Babylonian pagan names that referred to Allah the moon god.

Objection #2

Claim: Islam was not invented until Muhammad.

FACT

Actually, Islam [existed in old testament times](#) under different names. Muhammad just re-organized it and brought it into more modern times.

Niqqud Dot System Invented

Many people claim that the Hebrew language, in writing, contained a dot system, which is a system of diacritical signs used to represent vowels or distinguish between alternative pronunciations of letters of the Hebrew alphabet. It is called the [Niqqud system](#). However, the Niqqud dot system was not invented until around 1000 A.D., it was invented by the Masoretes. The dot system was added to the Aramaic text. Paleo-Hebrew **never** included a dot system. This is **fact**.

Accusation #1: LORD = Baal?

"Lord" means "Baal", the name of a false god or demon!

FACT

Actually, the word "lord" is a general title that refers to any master, ruler, owner, leader or husband. The word "lord" is never the actual name for any pagan god. Since, people worshipped false gods, they would of course call their gods by generic titles of lord and god. But these words do **not** refer specifically to any particular deity. People try to point to the Hebrew (Aramaic) word "baal" which **sometimes** does refer to a pagan deity. However, words can have different meanings in different contexts. We must also look at the original word, then the Aramaic translation and then the Greek and English translations. Just because a bad word was used in one of those translations doesn't mean that every word that ever replaces it is also a bad word. The words "lord" and "God" are **not** names of pagan gods. Baal is. YHWH is. Yahweh is. Lord is not. God is not. "The fact is that the word "LORD" is a Hebrew word and comes from the Hebrew word "ADOWN" (Strong's #113 & 136 a king or sovereign) from which comes "ADONAI" which is a Hebrew word translated into the Septuagint Greek version of the Old Testament became "Kurios" and both are **correctly** translated "LORD" and this refers to kingship or sovereignty". [Source](#)

Accusation #2: The Word "God"

The word "God" was originally used by the Teutonic people to refer to their heathen deities according to Websters Dictionary.

FACT

The word "God" is a title of anything that is worshipped. There is the True One Eternal God and there are false "gods". Some people's god is their money. Just because one group of people or some groups of pagans used the word "god" in reference to their "god" doesn't mean the word always refers to false gods. When using the word "God", you know which God you are referring to and so does the person you are talking to and so does God. He knows who you are talking to. He does not mind you using titles when referring to Him, He gives Himself many titles. Anyone with great authority has many titles and names which can be used interchangeably such as Sir, Mister, President, etc. The greater the authority, the more names and titles that person has. This is also true in all of the spirit world.

1 Corinthians 8:5-6 For though there be that are called gods, whether in heaven or in earth, (as there be gods many, and lords many,) But to us there is but one God, the Father, of whom are all things, and we in him; and one Lord Jesus Christ, by whom are all things, and we by him.

In the Holy scriptures, "Elohim" is used over 200 times to designate **false** gods. Some of the false gods designated by the word "Elohim" includes Baal, Chemosh, Dagon, Milcom, Nisroch and even the female goddess of sex, Ashtoreth. The word "gods" in the first commandment (**Exodus 20:3**) is "Elohim" in the original Hebrew. Even the word "El", meaning "Mighty One", while used many places to refer to the true God, it is also used many times to refer to false gods. Examples: **Exodus 15:11**, **Exodus 34:14**; **Deut. 32:12**; **Dan. 11:36**.

Accusation #3

The English word "God" comes from an old Syrian deity "Gawd" and is referred to as Gad in **Isa. 65:11** see margin.

FACT

There is **no** authority for such a statement. This is no more true than to claim that the Polish word "Bog" came from our English word "bog". To them, the word means an object or being of worship, but to us it means a marshy piece of ground. As for "Gad", one of Jacob's twelve sons was named Gad and thus one of the tribes of Israel is named Gad. **Gen. 30:11**; **Rev. 7:5**. One of God's prophets in David's day was named "Gad". **2 Sam. 24:11-19**. The word "Gad" has a favorable place in the Sacred scriptures, even though there was also a heathen god by that name mentioned in **Isa. 65:11**; and furthermore there is **no** evidence of a connection between the word "Gad" and our English word "God".

<http://www.merriam-webster.com/dictionary/god> 1. Main Entry: 1 god 2. Pronunciation: ɑd also 'gɒd 3. Function: noun 4. Etymology: Middle English, from Old English; akin to Old High German got god Date: before 12th century 1. capitalized : the supreme or ultimate reality: as a : the Being perfect in power, wisdom, and goodness who is worshipped as creator and ruler of the universe b Christian Science : the incorporeal divine Principle ruling over all as eternal Spirit : infinite Mind 2. a being or object believed to have more than natural attributes and powers and to require human worship; specifically : one controlling a particular aspect or part of reality 3. a person or thing of supreme value 4. a powerful ruler

The following is from: <http://www.websters-online-dictionary.org/definition/god> 1. Definition: God (*Noun*) 1. The supernatural being conceived as the perfect and omnipotent and omniscient originator and ruler of the universe; the object of worship in monotheistic religions. 2. Any supernatural being worshipped as controlling some part of the world or some aspect of life or who is the personification of a force. 3. A man of such superior

qualities that he seems like a deity to other people; "he was a god among men". 4. A material effigy that is worshipped as a god; "thou shalt not make unto thee any graven image"; "money was his god". 2. Date "God" was first used in popular English literature: sometime before 990. (references) 3. Etymology: God (g[o^]d), noun. [Anglo-Saxon god; akin to Old Saxon & Dutch god, Old High German got, German gott, Icelandic gu[eth], go[eth], Swedish & Danish gud, Gothic gup, probably orig. a past participle from a root appearing in Sanskrit h[=u], past participle h[=u]ta, to call upon, invoke, implore. Compare to Goodbye, Gosp. (references)

Accusation #4: Jesus = Zeus?

Jesus is a heathen name of the false Greek god, Zeus, shortened - Je-zeus. We have been ignorantly worshipping a pagan god as Savior.

FACT

...There is not a single authority in dictionary or any other historical source book that even hints at a possibility of the word "Jesus" having any connection with the Greek god, Zeus. Here are the facts. Strong's concordance says "Jesus" was written as the word Iesous (but in Greek writing). Strong's claims that the name came from Hebrew 3091 yehoshua, yehooshua. Yet the Truth is that Strong's points to Aramaic (Assyrian) and not Hebrew. It is impossible for Greek to point to Aramaic. The two languages are unrelated. Greek can point to true Paleo-Hebrew but not Aramaic. The Name Jesus did not come from Aramaic. So instead of using Strong's (which points to Aramaic for the old testament), we must examine the Name Jesus in true Hebrew, Paleo-Hebrew or even in Greek. In Greek, the I in Iesous would be pronounced with a J sound. **Not** with an I sound. It was the letter called "Jot/iota", which could carry either an I or j sound. In the first century A.D. and in the era of the 1611 King James translation, they only had one letter for both the I sound and the j sound. But later on, people developed a separate letter for each sound. But the J sound did exist in both Paleo-Hebrew & Greek during the original writings of the Old & New Testaments. Since Paleo-Hebrew & Greek look alike & sound alike, the rules of the true Hebrew language would apply for the name of a Hebrew person. The rule of the true Hebrew language states that if the Jot/iota comes directly before a vowel sound, it must be pronounced with a J sound. Even the word iota was originally pronounced with the j sound. It was called the Jota, Jot, Jod and Jud. The modern English spelling & sound of the word iota results from Aramaic influence. Language history is very clear that the word iota had the j sound in Paleo Hebrew and Greek. So when we see the name IESOUS, we therefore would have Jesous. The o is silent. Therefore it would be pronounced Jesus. He heard Jesus and went by Jesus. The Name Jesus was in use during His lifetime. Both Clement of Alexandria (150-215 AD) and Cyril of Jerusalem (313-386 AD) both stated that the name Iesous (which they would have pronounced Jesus) was Jesus' original name. **Not** that those men were perfect in doctrine, but they did clearly live in the early time era and had much access to the original scriptures and a knowledge of language. The bible tells us that Jesus means "God with us". Therefore when we go back to Exodus & see that God said I-JEH ASHER I-JEH", (H is silent, therefore we pronounce it I-JE ASHER I-JE), we see that JE is the short form of God's Name of "Jesus" in the Old Testament. JE with us is Jesus, or God with us. Jesus refers back to what God said His own Name is. It does not go back to any other person. Many articles proclaim that the word Jesus came from Joshua. Let's examine that claim. Strong's claims that Joshua comes from H3091 yehooshua, yehooshua. Again, that is Aramaic. It comes from the Targum Aramaic translation from Babylon by Jews who were worshipping Assyrian gods. It cannot be trusted. In **Numbers 13:8** We find that Joshua's name was originally Oshea which means "salvation, saves or deliverer". Moses added God's Name to the front of "Oshea" and formed a new name "Jeh-Oshea" meaning "God saves". **Numbers 13:16** "These are the names of the men which Moses sent to spy out the land. And Moses called Oshea the son of Nun Jehoshua".

Notice how they have replaced the ea at the end of his name with ua. That is not correct! It should simply be

Jehoshea. Joshua's real name is Jehoshea. His name points to God saving the people. Jesus does not point to Jehoshea. Jesus does not point to Joshua. The Name Jesus does not come from Joshua's name. But rather Jehoshea comes from JEH and Jesus comes from JEH. They both point to JEH.

The Prophets and Apostles never wrote YHWH, YHVH, YHUH, Yah, Yahweh, Yahshua, Yeshua, Jehovah or any version of these words. They only wrote IESUE and Iesous. In the New Testament, they wrote Iesous. But the first letter which looks to us as an capital I was called the Jot. It was pronounced with the J sound whenever followed by an vowel such as E. Thus we have Iesous, which we pronounce as Jesus. Thus, the Apostles wrote Jesus but was spelled Iesous. It is still Jesus. People claim they wrote Yeshua or Yahushua or some other y name. That's a direct **lie**. There is absolutely **no proof** they wrote any y name. There is **only** proof that they wrote Iesous. It does not matter what Strong's Concordance claims that Iesous comes from. It doesn't matter where it comes **from**. It only matters that they actually wrote IESOUS which is sure **and** pronounced Jesus which is also sure! Any claim that it comes **from** a y name is false. The y names are Assyrian Aramaic. There is **no** connection between Assyrian Aramaic and Greek. Therefore it is **impossible** that IESOUS come from any Y name.

Blaspheming God!

In the Hebrew Roots Movement, When a yah name believer uses the spelling "G_d", they are saying that "God" is pagan, thus "God" is condemnable or damnable. Thus they are truly saying G.D., that is, the bad curse word that no one should ever use! Some people claim that the reason they spell God as G_d is that they are **respecting** His Name by not spelling the entire word. Yet God is **not** His Name! So that excuse does not hold water. Regardless of any human reasoning, it is the spirit of anti-Christ that is causing people to curse God with the G-d spelling.

Jesus is not a 4-letter word! How dare anyone to try to turn it into a 4-letter word! Shame on anyone who causes confusion in the church and say that Jesus is a 4-letter word in reference to false gods or the evil one! Jesus is not the evil one! Jesus is the Saviour. Any doctrine that tries to say anything else is not of The Almighty!

I was not confused in my mind and had a great relationship with God in Light until the spirit of religious confusion came against me and my spirit and caused darkness in my life because of the so called sacred names issue, causing me and many others to doubt who they were praying to. I **know** darkness. Unfortunately I have had more to do with darkness in my life than most people on this planet. But I tell you one thing right here and right now, that I felt much darkness come against me when the yah groups caused my mind to be oppressed with darkness and confusion. People have gotten so caught up with **research** and knowledge that they have forgotten to test the spirits. They say it is confusion to speak with the Gift of the [Holy Ghost](#) of speaking in [unknown tongues](#). They say it is confusion to [shout praises](#) to God. They say it is confusion to [testify](#) in front of a congregation about what God has done for them. But yet they do **not** claim confusion when they tell people that they are praying to demons by pronouncing the name of Jesus in modern day English! Even though I will lose the support of many of you, I must proclaim that there is Peace in the name of Jesus Christ! The Lord has confirmed this to me many times over! **You need to give up your own understandings (Proverbs 3:5-6) and all your internet pages and reference books and stop and listen to His Voice! What is He telling you?**

True meaning of 666 Revealed in Greek Codex Vaticanus

In 2007, The Almighty God, the Alpha and Omega, took me to a location where a copy of the Greek [Codex Vaticanus](#) was located. At the time, I did not actually see it and I did not understand what God was showing

me. Then three years later to the very month, God brought the Revelation to me that the Codex Vaticanus revealed the true meaning of 666. It is **not** revealed in the Aramaic Hebrew of Strong's Concordance. [Click here to read all about it.](#)

Jesus Means "God Who Saves By Water"

We know from scripture that Jesus means "God with us". But it also means God saves by water. This was another confirmation from God concerning all of this. Moses means "saves by water". Notice Josephus, Antiquities, Book II, Chapter 9, Paragraph 6. "Hereupon it was that Thermuthis (*Pharaoh's daughter*) imposed this name Mouses upon him, from what had happened when he was put into the river; for the Egyptians call water by the name of Mo, and such as are saved out of it, by the name of Uses: so by putting these two words together, they imposed this name upon him. And he was, by the confession of all, according to God's prediction, as well for his greatness of mind as for his contempt of difficulties, the best of all the Hebrews, for Abraham was his ancestor of the seventh generation".

Moses foretold the coming of the LORD Jesus. In **Deut. 18:15-19** Moses said that a prophet (*Jesus as both God in the flesh and as a Prophet*) would follow him. Moses was a foreshadowing of Jesus. Moses was the first mediator between God and man. Jesus was the greatest fulfillment of a mediator between God and man. In **Acts 2:38** of KJV it says "Then Peter said unto them, Repent, and be baptized every one of you in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost".

Recently, The Almighty taught me that the action of getting baptized in water is the action of getting Saved. On April 22, 2013 I posted in the newsletter "Prayer of Salvation **or** Baptism?" Where does the bible say we are to teach people a prayer of salvation? Doesn't it say we should go baptizing them? "Repent and say a prayer of salvation"? or does it say "repent and be baptized"? "Go ye therefore teaching a prayer of salvation"? **No**. Actually, it says "go ye therefore and teach all nations **baptizing them** ..." **Matthew 28:19** Brother Terry says "I see no example of a sinner's prayer in the bible. And when I say example I mean someone actually doing it. In **Acts 2:37** when these people were pricked in the heart by Peter's sermon and they cried out "Men and brethren, what shall we do?" Does Peter say repeat after me?" This is one of the many reasons we do need real gatherings. not just television preachers and internet. we need local pastors and evangelist and all of the five fold ministry. Baptism is necessary".

On April 23, 2013, I baptized five people in the Name of Jesus. I preached on that day and in previous days that Baptism is the method of Salvation through Jesus Christ. Also in recent days, the Holy Breath/Spirit was telling me that the names Yah, Yahweh, Yeshua, etc. were wrong & evil. That I should speak out against them. I had been fighting hard for the Name of "Jesus" for years. And I had been fighting hard against the "sacred names doctrine" that teaches that people **must** use the Yah words. **But** I had thought that it was acceptable for people to use the Yah words as long as they did not deny the Name of Jesus.

But I had felt a great deal of demonic oppression from the Hebrew roots sacred namers. God had shown me that they are **not** saved. They loved the law more than they loved the Almighty. They focus on the law and **not** on the Savior. They focus on Hebrew culture and the so called Hebrew language (which now turns out to be Babylonian Aramaic!). They are blinded by their focus on the Old Covenant. The Almighty has shown me all of this. But I still thought that they could use the Hebrew names as long as they did not deny The Name of Jesus. But the Holy Spirit began to lead me to speak out against those so called Hebrew names as evil. But I did not do so. Until as the Holy Spirit began to press me harder and on April 23, 2013, I saw a post on Facebook that said "there is no Y in Paleo-Hebrew".

So then on the next day, I began researching more about the Hebrew language & my eyes were opened! **I saw**

the light! Later, I spoke over the phone with a sister in Christ who had recently contacted me about her confusion that had come from the Hebrew Roots & Sacred names groups. Christ had recently led her out of those groups as she was now able to see that they were not focusing on Christ but rather on everything else. Like me, she had a spirit of confusion coming against her from those groups. I shared a little bit of this information from the website God had just led me to. I explained that the yah names were Babylonian translations. She told me that she had just seen something on the internet about "Yahoo Babylon". But she did not know what it was about.

So I eventually searched the term "Yahoo Babylon" and I was led to see that an Israeli company by the name of "Babylon" (an language translation company) had signed a deal/contract with **Yahoo**. [Source](#). **Wow!** What a confirmation! You can't get a better, stronger, more powerful Confirmation than that! The article was even dated 4-24! and leads back to [another article](#) from 4-23, the date I baptized those people! EHJEH ASHER EHJEH was teaching me that the yah names were Babylonian **and** that He saves by water (**Not** a prayer of Salvation, although people still need to say such a prayer, but then they must repent & be saved via water baptism & receive the gift of the [Holy Ghost, the Soul of Christ Crucified, Resurrected & Glorified](#)).

If you have rejected the Name of "Jesus" or have been baptized into a yah name such as "yahshua" or "yeshua", you have embraced demons! You need Deliverance!, You need to Repent and Be Saved and Baptized in Jesus Name! **Jesus is the Correct Name for the Messiah!

Babylonian Pagan Demonic Names

Including but not limited to: - **Yah, Yahweh, YHWH, YHVH, the 4-letter tetragammonton - Yahshua, Yahve, Jehovah, Iaove, IHVH, JHWH, Iah - yahueh, iahueh, iahwah, yahoewah, iahoewah - yahuah, yahuwah, yahwe, iehovah, Yeshua - Yahoo** (I encourage everyone to delete your yahoo groups, addresses, etc.)

There is only one Name by which you can be saved. That is Jesus! Jesus is the correct name for the Messiah! Jesus is the correct Hebrew Name of God. It is **not** Greek nor Latin. It is the English spelling of an ancient Hebrew Name. In the 1611 KJV, Jesus was spelled with an I instead of a J. However, it had a J sound. Greek has a J sound and original Paleo-Hebrew had a J sound. There was no "Y" in ancient Paleo-Hebrew. I am **not** teaching that people **must** speak a secret/hidden/unknown Hebrew name for God. The Name Jesus is preached all across the world. This is **not** secret Freemasonry knowledge. This is not salvation reserved for a select few with secret information. I have personally met a very high ranking Freemason who refuses Jesus name, yet he promotes Yeshua name. The YHWH is on Catholic church buildings & on Freemason lodges. This should tell you something! The Old Testament & Old Covenant both pointed toward the arrival of Jesus. If we want to know the Name of The Father, we need to look no farther than Jesus who is the express image & manifestation of The Father with us. The Name of Jesus is the Name of The Father. We do not serve 3 gods or 2 gods. We have only **one** God. God with us is Jesus. Jesus said that He came in his Father's Name. When a man has his father's name, they both have the exact same name, not a variation of it! Fred Sr. - Fred Jr., Henry Sr. - Henry Jr., Jesus - Jesus. Exact same name! Acts 4:10-12 says that "Jesus" is the **only** name by which mankind may be saved. There is no other name of salvation. Zech. 14:9 says that in the Kingdom, his name will be **one**. We won't be seeing or serving or pronouncing 2 names of God. [Please see the article: "Who is Jesus?"](#)

Acts 2:38 And Peter said to them, 'Repent, and let each of you be baptized in the name of Jesus Christ for the

forgiveness of your sins; and you shall receive the gift of the Holy Spirit. Acts 8:16 For as yet he was fallen upon none of them: only they were baptized in the name of the Lord Jesus. Acts 10:48 And he commanded them to be baptized in the name of the Lord. Then prayed they him to tarry certain days. Acts 19:5 When they heard [this], they were baptized in the name of the Lord Jesus.

Question #1

What is the most accurate bible translation? What bible should we use?

Answer

The most accurate bible translation available today is [The Alpha Omega Bible. Click here to learn about it.](#) The second most accurate is the New American Standard Version (NASB). [Click here to compare NASB with KJV.](#) None of these translations are 100% perfect to the original scriptures but they do come much closer than the KJV which was produced only because the pope hated the Geneva Bible. The pope & the Church of England wanted a bible that everyone would accept under their religious bondage control. They added more corruption into the already corrupted text.

Question #2

Should we still use the Strong's Concordance?

Answer

Yes. Not all Aramaic words are evil. Only those that point specifically to pagan gods. We should not use the specific names of pagan gods (demons) in place of the Holy Names of The One True Eternal God. Strong's can actually be helpful in pointing out which names are the evil ones.

More Confirmations after initial release of Article:

On May 14, 2013, the date of releasing this article, I also received my very first copy of the Greek Septuagint, translated into English by Sir Lancelot C.L. Brenton. First published in 1851. 14th printing May 2011. After releasing the article and having returned home to rest and read, I discovered to my surprise in the preface of the book, it states "It has been preserved in a large number of manuscript copies of the original, and the Greet text in Brenton's edition is based on Vaticanus, and early fourth-century manuscript, with some reliance on other texts...".

That is a major Confirmation to me because as I have written, God showed me the Codex Vaticanus contains the true meaning of 666. I had even placed that information at the very bottom of the article. So now, I am able to place this confirmation right under that. Even the date of May 14 for me to receive the book is confirmation as God uses the number 14 to confirm and reveal certain things to me. I am **not** into numerology. But God does use numbers significantly in the bible. Also, this particular printing of this edition was in May and was the 14th printing! Wow, praise God for these continued Confirmations.

Another Confirmation: May 15-25, 2013: God provides many copies of New American Standard Bible (NASB)

Today, to my surprise, God made available to me **many, many** copies of the NASB for the grand total low cost of only \$22.84, Yes God does confirm! God does speak to His people. He is real and alive! Will you hear what The Spirit is saying to the Churches?

More Confirmations, May 29, 2013:

After publishing the article that God has given me and after God gave me the **many, many** copies of the New American Standard Bible, as being much more accurate than the King James corruption, I have noticed and come to the comprehension that **demons will actually fight very hard for the King James version but not for the New American Standard Bible**. I was viciously attacked via phone and text and inbox by a woman who had a demon in her. Both her and her family waged intense fleshly war against me and it all started because she would not give up her corrupted King James Version and all of its added sentences and evil words.

After sharing story with a friend of mine, he shared how others had attacked him in similar ways, even threatening to kill him! I am reminded of similar occurrences I have seen and heard of. It is clear to me now that these people are not just angry Christians defending what they think is the only holy, pure bible on Earth, but rather, these are demons fighting for their corrupted translation to defend all the corruption and Babylonian names of blasphemy (**Rev. 17:3**).

A true Christian would make very bold statements. But they would not be fleshly vicious and life threatening like these reports. Demons will **fight** for the King James translation! The more I study the ancient languages and manuscripts, the more I see the defilement of the King James text. The KJV is the bible of the church of Babylon. Another proof that the "KJV only" people are wrong is the undisputed **fact** that the word "LORD" in all capitals were added by the Jews in place of the Name of God in the old testament. This is well known and cannot be denied! It's impossible for the KJV to be 100% correct as the KJV only people assert, when in **fact** we **know** that the Jews took out God's Name and added "LORD".

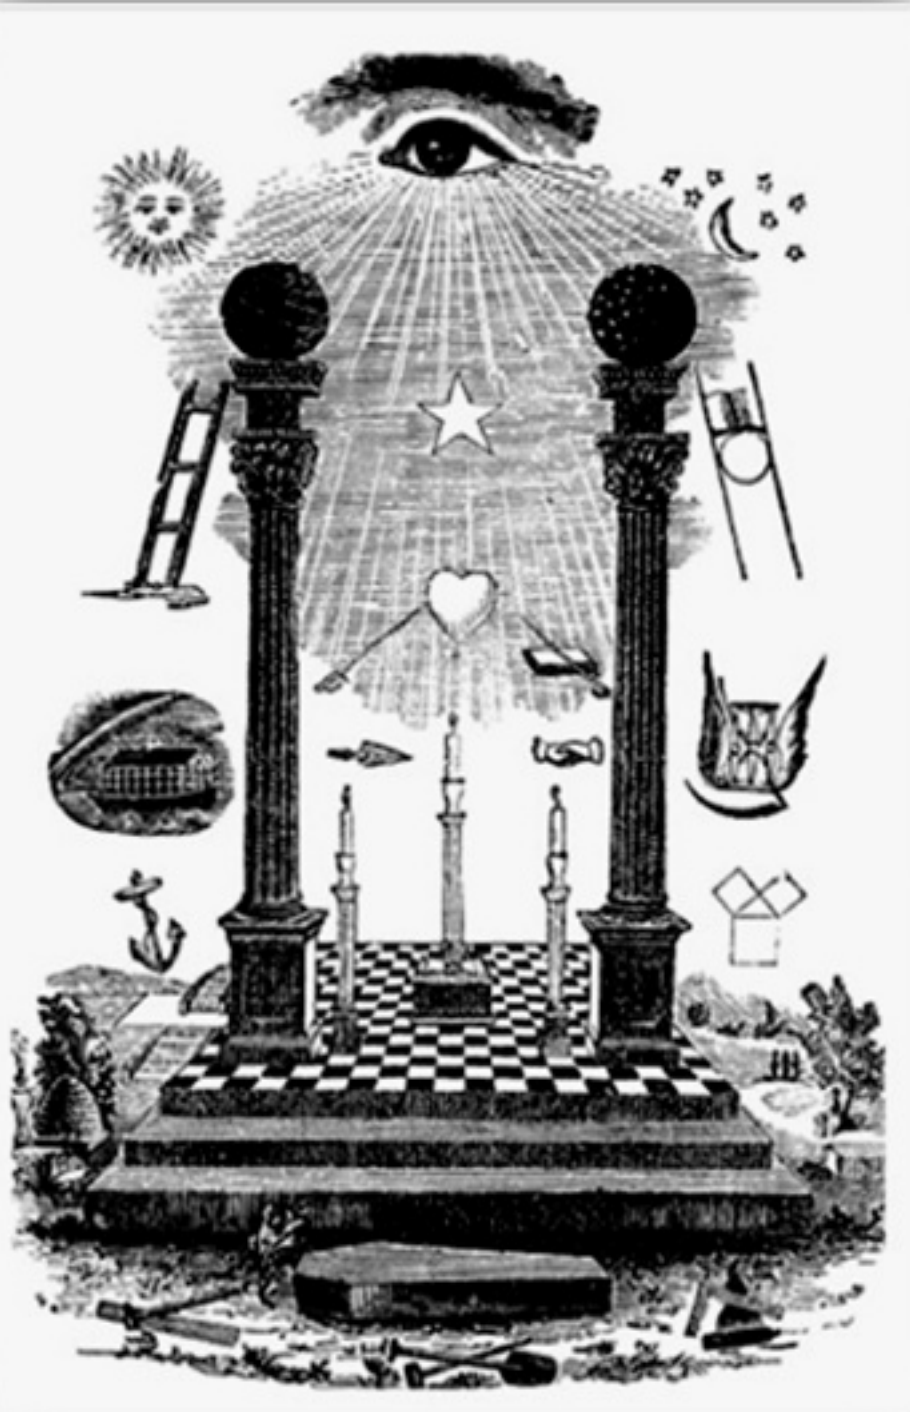

The New American Standard Bible has earned a good, well earned reputation as being an accurate translation. However, the NASB never re-inserted God's Name of Jesus in the Old Testament. That's why I **had to** translate the scriptures in what's called "[The Alpha & Omega Bible](#)". The Alpha & Omega Bible includes the books of the bible that were actually removed in 1666, as well as words that appeared in the original scriptures that were removed by the Church of England & the Catholic Church. The A&O Bible restores Jesus' name in the Old Testament.

Another Confirmation: Masonic Handshakes in King James Version

[This Link](#) proves to you that the **original** King James Bible had the Masonic handshake all through its pages. That link tries to defend the KJV despite that fact! Which is absolutely ridiculous. It's amazing how people will try to defend evil, even when they have proof of evil. It is no mistake that the drawings of the masonic handshake was chosen to be displayed in the original KJV. I was not going to post this but then God confirmed it to me. So the truth is the truth and we must accept the truth and we must accept the revelations from God.

YHWH is the All Seeing Masonic Eye

Below is The "Masters Carpet," from The Masonic Monitor in 1820, including the Freemasonry symbols of the Sun, the Moon and the all seeing eye.

Below is the very top portion of the title page from the original KJV bible. Notice the sun on the left and the moon on the right, just like in Freemasonry symbolism. Notice the Aramaic YHWH in the middle, as the all seeing eye!

- [Click here to see entire original KJV title page](#)
- [See the cover of the original KJV bible, also showing the sun, moon and all seeing YHWH eye](#)

For more proof it is connected to Freemasonry, Check out these sources:

- <http://www.sacred-texts.com/mas/sof/sof26.htm>
- <http://www.freemasons-freemasonry.com/esoteric-masonry-tetragrammaton.html>
- <http://crossbearer-brian.tripod.com/id28.htm> (which also includes proof against the invented name "Jehovah")

YHWH/YHVH is associated with occult pentagrams: [Source 1](#).

YHVH/YHWH inside triangle/all seeing eye/sun inside the Catholic church, 5th Chapel of the Palace of Versailles in France.

Each Group with a Name

The True Christians have the Name (Character/Authority/Ownership) of The Father on their foreheads Spiritually. **Revelation 22:4** The people who take the [mark of the beast \(Islam\)](#) have the name of Allah upon their foreheads (Spiritually). The woman Babylon ([false church including Islam, Catholic church and all daughters and denominations of Islam & of the Catholic Church](#)) is full of blasphemous names (Yah, Yahweh, YHWH, Jehovah, Yeshua, etc.) **Revelation 17:3-5** New American Standard Bible (NASB) 3 And he carried me away in the Spirit into a wilderness; and I saw a woman sitting on a scarlet beast, full of blasphemous names, having seven heads and ten horns. 4 The woman was clothed in purple and scarlet, and adorned with gold and precious stones and pearls, having in her hand a gold cup full of abominations and of the unclean things of her immorality, 5 and on her forehead a name was written, a mystery, **“Babylon the great, the mother of harlots and of the abominations of the earth.”**

In **Exodus 3:14** they have inserted the Assyrian name of yhvh. These are 4 Assyrian letters with no vowels. Where else in the bible do we see letters with no vowels? That would be **only** in **Rev.13:18** the mark of the beast. 666 is derived from [just 3 letters](#), no vowels! **Rev. 13:17** says the mark or **the name** of the beast. This beast it is talking about is the son of perdition (antichrist) Bashar Assad, the president of Syria. Verse 1 says on his head (**forehead**) are blasphemous names. Since he is Syrian, he has Assyrian names. The middle letter/symbol of 666 is actually and literally the name of Allah in Aramaic just like with the yhvh blasphemous names. These blasphemous names on the beast forehead are: Allah, yhvh, yhwh, yah, yahweh, yehovah, Jehovah, yeshua, yahshua and all other variants of the Assyrian names of Assad.

Update Nov. 11, 2013: Major Confirmations and Clarification on Sacred Names Article:

God had already led me to write and explain how that the scriptures had originally been written in True Old Paleo-Hebrew but was translated into the Aramaic language sometime during the Assyrian or Babylonian Captivity. Thus, when they did that, they inserted the names of their Babylonian witchcraft god known as

YHWH, Yah, Jah, and Yahweh. I had already given **tons** of solid undeniable proof of this. God has now given me more major confirmations of this.

New Confirmation

The modern Hebrew (square) script is called "Ashuri", "Ashuri" is the Hebrew name for Assyrian, the name being used to signify the ancestor of the Assyrians, Ashur the son of Shem, the son of Noah (**Genesis 10:22**).

I had previously already written about Asshur and his connections with our modern day King of Syria, son of perdition. The website <http://www.peshitta.org/initial/aramaic.html> gives **much strong powerful undeniable proof** that the scriptures were translated from true Hebrew into Assyrian (Aramaic) during the Babylonian captivity and that what everyone is calling Hebrew is actually a form of Aramaic. **Read this article!**

Therefore, Strong's concordance, in the Old Testament dictionary part of it, doesn't point to true Hebrew. It points to the Assyrian tongue. The tongue of the Son of Perdition, who is part Jewish yet Syrian. This issue is directly related to Bashar Assad, president of Syria, being the Son of Perdition. When people use "Jehovah, yehovah, yahovah, yahweh, yah, jah, yhwh, yeshua, yahsua, etc", they are invoking anti-Christ spirits upon themselves thereby bringing them into bondage to witchcraft and the spirit of Babylonian confusion. Those that are not delivered from this spirit, will eventually deny Christ in one form or another. I have heard of many people rejecting the New Testament and Christ and the New Covenant and completely converting to Judaism. I have personally witnessed how that the sacred names and Hebrew roots followers are blinded to much truth.

UPDATE March 10, 2014: Another Major Confirmation!

The so called "Hebrew" writing is also called the "Assyrian Script". That is a **fact!** [Source](#). So how can people say that it's not Assyrian? It's called Assyrian! It looks like Assyrian, it sounds like Assyrian. It's Assyrian!

Isaiah's real name = Jesaias.

Isaiah is Babylonian pagan name inserted into scripture when the Jews translated the bible from Hebrew into Assyrian during the Babylonia captivity. Isaiah = Isayah. His real name is JE-Saias. In the New Testament, written in Greek, which is the True Hebrew language, Isaiah is called "Esaisa, which Strong's Concordance points back to so called Hebrew which is actually Assyrian and has nothing to do with the Greek/True Hebrew language. But it points back to Yesha`yah, proving that Isaiah is a pagan name, iah at the end of **Isaiah** is yah. Strong's admits that the correct Isaiah is Jesaiah but keeps the yah at the end. Staying true to the Greek word ending with ias, and preserving the J at the beginning, we now understand that Isaiah's real name is JE-Saias which means God saves. It is related to Joshua and Jesus. Ezekiel's real name is JE-Zekiel which means "God strengthens". Jesus is God's real name, Jesus is God with us. Jesus is our Saviour's Name! We only have one Savior, not two. JE is the short form of Jesus, just like "Yah" is the short form of Yahweh, the ancient Assyrian name of Allah.

Here are the cleaner, more accurate names for the people in the bible:

Nehemiah = Neemias

Esther = Hadassah

Isaiah = JEsaias

Jeremiah = JErermias

Ezekiel = JEzekiel

Obadiah = Obdias

Jonah = Jonas

Micah = Michaeas

Zephaniah = Sophanias

Zechariah = Zacharias

Joshua = JEH-Oshea

Messiah = Messias

Additional Confirmations: Update: Sept.8, 2015

Jesus has called & ordained me to publish the **most** accurate translation of the Holy scriptures that will be available to the common person in the modern times! Since I have started working on [the Alpha & Omega Bible \(click here to learn more\)](#), The **Almighty** God has given me several powerful confirmations of His Blessings and anointing on this translation. **And** He has also been giving me the correct words and confirmations of those words. Truly, He has given me the Holy Spirit inspiration for the correct translation of the Holy scriptures. He has also given me **more** information, confirmations & proof for everything I have already written & further revelations concerning a divine connection between the name "JE" & the words "Alpha & Omega". When we call Him JE or Jesus, we **are** calling Him The Alpha & Omega! This is why Jesus said that He is the Alpha & Omega! Because He is JE with us!

Al-ilah means "the yah", which means "the moon god". Allah comes from Al-ilah. Which I correctly translate as Al-yah. For information about Allah being Al-ilah see this link:

<https://web.archive.org/web/20080116122239/http://www.biblebelievers.org.au/moongod.htm>

From: <https://books.google.com/books?id=NNMUKIW8QMC&pg=PT79&lpg=PT79&dq=al-yah+moon+god&source=bl&ots=SnvB5AdIAf&sig=nTpIouzpNr8JyMEdpjXy3K-AWs&hl=en&sa=X&ved=0CEsQ6AEwBmoVChMIrbvGp4voxwIVihCQCh2Pgg7f#v=onepage&q&f=false>

"The Egyptians may have known Sin as the Moon god Yah or Lah (see Yah-weh, Al-ilah)...The earliest references to Yah refer to the moon in its physical form. Yah or Lah was introduced to Egypt and was mentioned in the ancient writings of Exodus...(See The Egyptian Hieroglyphic Dictionary by E.A. Wallis Budge and A Dictionary of Egyptian Gods and Goddesses by George Hart). ... The word Hallelu was used among the Bedawi people in the Abyssinia as a salute to the New Moon. (See Briffault v3 110). If the word Hallelu is broken down into syllables al-le-lu, does it not become interesting? Could Al-le-llu actually mean 'Lord the Lunar' or 'Mighty Moon'? "Alphabet" derives from the Greek Alpha Beta, which derives from Aleph (ox/mighty), and Beth (house/family) in Ancient Hebrew. Aleph is where we get the word Eleph-ant from. As you can see A and E become interchangeable as in El and Al both of which mean 'Lord', mighty or powerful. The pre-Hebraic name for 'god the father of all things' was Yah/Jah/Ja ..." But if we apply what we already know about the true sound of J and the Assyrian use of the Y sound, and applying this same author's statements about A and E being interchangeable, Then I can certainly assert and prove that the original name of the Creator was **not** Yah, Jah or Ja, but rather it was JEH or JE. ... El was the earliest name of God found in the Ancient Negev script used by the Hebrews, meaning 'Lord' or 'The Mighty' represented by the Bull/Ox head/Aleph/Al/El symbol of an A upside down. Another page: "This being could also have been the same origin of the ancient Moon gods Nanna, Enlil, Sin, Alilah, Yaho, Yahu, Yah and Lah (Al-lah?). Remember that Abraham's Yahweh who could have originally been a god known in Babyon as Ya'u also...."

From www.blueletterbible.org on **Exodus 6:3** interlinear on "Jehovah", H3068, Gesenius' Hebrew-Chaldee Lexicon : "...certain ancient writers, who have stated that the God of the Hebrews was called IA (and the Omega symbol)."

Therefore, I being J, we have the letter sound J and then the Alpha and Omega symbols all together. JEH was probably originally written as 3 symbols together before all the letters was formed. The 3 symbols were the J which looked like an I, and then the ox for the Alpha and then the upside down horseshoe for the Omega.

When people try to claim that scripture used the Alpha and Tav together, they are lying! There is absolutely no evidence that the Creator was **ever** called the Alpha Tav. **Only** the Alpha Omega! Their claim is based on H853 yet H853 is also used in verses that do not even reference the Creator! Therefore it **cannot** be a Name of the Creator.

UPDATE Sept.18, 2015

On Sept. 16, 2015 a 8.3 major earthquake struck the region of Illapel Chile, South America. The tsunami waves were over 15 feet in that region. Lesser waves of 1-3 feet hit Hawaii, Alaska, California and other Pacific regions. The timing of the earthquake helped to bring my attention to the earthquake. There have been larger and more deadly quakes that I didn't pay as much attention to and that I didn't speak about.

This earthquake also hit in the time frame of when I have been working on the Alpha & Omega translation & restoration of the scriptures. This is very significant because of the name of the town Illapel. The first 3 letters look the same. So I had to translate what the letters actually were. The first letter is I but in capital, uppercase, so it look like I which looks like the next two letters L in lowercase. So to understand this word, illapel, a person would need to understand about lowercase and uppercase and how to pronounce each letter and how to distinguish between letters that look **the same** or similar, yet have different sounds. Part of my current research for the translation of the scriptures involved looking at the word Allah. Allah came from Al-ilah, which would look like Allah if we do not use the modern L or the modern I since both L and I did not exist in ancient languages. Notice the llla in Allah just like in Illapel Chile. 4 letters consecutively look the same in both words! This **cannot** be coincidence!

The first 2 letters of Allah is Al which is Alpha which means "The". The ilah. I have written many times previously about how the modern letter J or j originally looked like the letter I or I in Paleo-Hebrew which is now known as Greek. It has been called by several different names including the "jot, jotta, iota, jud, yud, jod, yod". According to how it was used in a word, it could have the J, Y or I sound (although the Y sound is not as old as the J sound). But now I am also learning that the L originally looked like the capital J. That's very interesting since the y name cults, Hebrew roots cults, claims that there was never a letter J, nor a J sound. I have already proven many times that the jot had a J sound. The **fact** is that there was also no Y, E, S, U, V, B, C, D, F, M, P or many other letters originally in Hebrew! **All** letters have evolved over the millenniums. But there **were** such sounds (& pictures that represented them) just like there was also the J sound. The Yah name cults do **not** tell you this documented **fact**!

But now there is also proof that there was also a letter that looked like J. It was called the Lambda/Lamed. It is the modern letter L. At different times in history, it looked like the letter J, I, Y, ^ and v. In ancient languages, different letters/picture words took on more than one sound & were sometimes interchangeable. For example, the Al (Alpha) could also be sounded or spelled "EL" and it is the origin of the first sound in "elephant". So both Al & El is correct. The A & E has been interchangeable in many words. But that is mostly because of people's lack of understanding of how & when to use A and when to use E. But sometimes, it really doesn't matter. Just like the Lambda had different appearances, it also had different sounds in different languages and in different time eras. When used in combination with an Jot (i,y,j), the L pretty much either became silent and/or helped determine whether the jot had an J, Y or I sound. In modern language, the Allah is pronounced like AL-La. But I believe that is due to a lack of understanding that in ancient times the combination of the Yud/Jot and the Lamba would **not** have the L sound, but rather the Y sound, especially in Aramaic/Arabic. So AL-ilah should be pronounced Al-Yah, meaning "The Yah", meaning the moon god known as "Sin", "Yah" & Yahweh/YHWH/YHVH/Yahshua/Yeshua. We have tons of proof that Yah was the moon god & that he is now known as Allah. So we should not deny that Allah was at one time pronounced "AL-Yah".

The Illapel earthquake helped me to know that Jesus kept bringing me back to the il combination until I fully understood and proclaimed this revelation. It confirms again who yah is **and** that "Al" = "The", and therefore vice versa: "The" = "Al" or "The Alpha". The name Allah is **not** the true "Alpha". Allah is a counterfeit of Theos and of The Alpha and Omega, just as Yah is a counterfeit of Jesus. Do I think or proclaim that Jesus killed 11 people and shook the city of Illapel only so that I could receive the fullness of this revelation? **No**. But I do know that He does things for **many** purposes and can use world events to open the eyes of His people. All praise, honor, and blessings to JE, who is JE with us, Jesus!

UPDATE Sept.20, 2015

On Sept. 18, 2015 I posted on how that The Eternal Almighty Creator showed me how that the letter L can sometimes have the Y sound. (El and AL do **not** have the Y sound unless an "i" is present). After posting the newsletter, my wife read it and she shared with me how that the L in her name have the Y sound in Spanish. I did **not** know that! So that was a **huge** confirmation! Then last night, I noticed that some Hebrew roots Y name people call The Creator "Elijah" which shows the liy combination that I was talking about and continues to confirm that "yah" and all the Y names are actually Allah and are not really referring to The Creator A/O JE/Jesus at all. They are referring to Satan. These Hebrew roots cults are Satan worshippers. Like I have been saying for years, they are **not** your brothers and sisters. They are **not** saved. They are vampires. They are extremely dangerous and we need to stay as far away from them as possible. Yes there **are some few** people among them that are the chosen elect. But they are very few in number and if they are truly followers of Jesus, they **will** eventually come out from among them and denounce all those evil Y names, and except the Holy Names of Jesus, JE, Alpha, Omega, The Mighty O, The Alpha & Omega, Christ, LORD, Theos, The Almighty, The Everlasting, The Eternal, The First, The Last, The Beginning, The End, The Word of THEOS, The Logos, Wonderful, Counselor, Father, Son, Son of Man, Son of THEOS, The Lamb of THEOS, and a Name that no man knows. But all the Y names are evil: Yah, yahweh, yhwh, yhvh, yahshua, yeshua, Elijah, aliyah, allyah, Allah, alilah, etc are all evil.

Update March 29, 2016: Old Reference Works

I have a copy of the 1878 "Smith's Pronouncing Bible Dictionary". Not only does it give definitions, but tells you how to pronounce the words. For the section on "Jesus", it has "JE'SUS". And it even says that in the Hebrew it had the J sound. Smith's Bible Dictionary is a very well known and respected and trust worthy reference work. Recently, I was able to attain a hard copy of the 1611 KJV Bible. This is the **only** 1611 KJV I have ever seen in my life except on the internet. Most people have a 1873 KJV which is much different from the 1611 KJV. The 1611 included several more books called "the Apocrypha" which were taken out of the KJV in 1666. Also, the language is the older English. King James is written as "King Iames" which proves that the Jot/iota character that looked like an I, had the J sound whenever it was used as the first letter of a word followed by a vowel sound. This is the case through out the 1611 KJV. The Y name cults admit that the change in the letters did not occur until after 1611. We **know** that King James had the J sound. **No one** claims that it should be King Yames.

Update Sept 15, 2017: Testimony From a Reader:

From Colin in Canada: "Hi Tim, I read your article on the "Y" names. First of all, it pleased me to see your "about me" section and that you actually stick to biblical truths (seventh day sabbath, holy days, etc..). That got me extremely interested in reading more. I too had some demonic experiences happening, and would dream repeatedly of trying to cast out names in "yeshua" and there was absolutely no power. Than, things started to get a little weirder and some physical scratching was heard outside of my room; for nearly a week, at the same

time, twice a night. I prayed in yeshua's name and nothing; then I kept having dreams about using the name of Jesus, and there **was** power in His name. So, last week I decided to try and use the name of Jesus, and it hasn't come back since! That prompted me to look deeper into this whole name issue, thus leading me to your website. It was certainly a blessing in my life- so praise Jesus". **End quote.**

I Saw The Light Ministries has received several testimonies identical to and others very similar to this testimony. It's very clear that the Y names such as yeshua, yahweh, yhwh, yahshua and all variations of such Assyrian names are evil and demonic. Demons are **not** afraid of the y names, but they do flee in Jesus Name!

The Assyrian origins of [Christmas](#), Assyrian origins of [Easter](#), Assyrian origins of the [Trinity doctrine](#), Assyrian origins of the so called [star of David](#), Assyrian origins of the yah names, All point toward the [Assyrian son of perdition](#) and the Assyrian [invasion](#) of the nations.

Do you disagree? We encourage you to take your time in prayer & fasting as you continue to examine this subject. Many times, it takes days-weeks, even years to undo man's doctrines or traditional thinking. It's a process. Many times, just reading websites is **not** enough. We must be willing to take the time to talk to our LORD & Savior Jesus Christ in **much** prayer & fasting, and continual repentance and continued growth in spiritual maturity. We should pray that He remove all deception from us & always be willing to change as He continues to teach us. If we have **not** changed anything that we believe in 12 months, we are **not** growing enough in His Truth. We must continue to grow every year until we reach **full** maturity to the full stature of Jesus Christ. [Eph.4:11-16](#). May Jesus continue to bless you in all of your seeking for His Truth.
